## DATA TRANSFER SELECT

We've successfully connected to your old Hema Cloud account, below is a list of all your current data active and not archived in the old cloud.

Simply review each track/record you wish to sync, then simply click on each track record to start the sync/migration process. We recommended only doing this one at a time (until a success message is received) ensuring you transfer relevant data you require into your new account.

Date	Name	Sync
22/2/2021	Mt Mee - 6/05/19 11:23:43 am	<a href="#">9</a>
22/2/2021	Yarraman forest	<a href="#">Click to Sync</a>
22/2/2021	Sandy Creek Track	<a href="#">Click to Sync</a>
22/2/2021	Hampton to Gatton-Esk Rd	<a href="#">Click to Sync</a>
22/2/2021	Hampton to Blackbutt	<a href="#">Click to Sync</a>

**Step 9:** When you are returned to the Migration Assistant window you will now see the track you have synced is now in a green bar to indicate that.

If you would like to sync more tracks you will need to repeat steps 7-9 until all your items are synced.
