Road Classifications

The following road and track classifications are based on a general assumption that map users are familiar with the often-tough condition of outback and High Country roads and tracks. Any unsealed road or track can be hazardous due to fallen timber, flash floods, washouts, sand, mud or bull-dust patches and extreme corrugations. Use classifications as a general guide and always seek local advice.

Track Class Definition

Easy: All-wheel drive and high range. Novice drivers.

Medium: Mainly high range 4WD but low range required. Some 4WD experience or training required.

Difficult: Significant low range 4WD with standard ground clearance. Should have 4WD driver training.

Very Difficult: Low Range 4WD with Low range 4WD with high ground clearance. Experienced drivers.
