For each question, please select the best single answer from the choices below:

- 1. I have to take personal responsibility to keep myself and my co-workers safe?
 - a. True
 - b. False
- 2. Am I allowed to wear my wedding ring under my glove?
 - a. Yes
 - b. No. No rings, necklaces or dangling earrings are allowed on the operating floor.
- 3. Beards longer than 4 inches below the chin must be restrained with a beard restraint.
 - a. True
 - b. False
- 4. Wristwatches with bands that continue under the face are not allowed in production areas. Watchbands with breakaway pins are acceptable.
 - a. True
 - b. False
- 5. It is good practice to identify my nearest exit prior to starting my assigned job.
 - a. True
 - b. False
- 6. If I am not familiar with the equipment I am going to work on and I am not sure where I should lockout, I should:
 - a. Give it my best guess and just attach my lock.
 - b. Rely on the opinion of a co-worker
 - c. Stop, request a mill operator or mill supervisor to show me what the energy sources are and where to place my lock.
- 7. As a contractor, if I have information on a flash drive, external hard drive or other portable storage device I can simply attached it to a Pixelle computer
 - a. True
 - b. False I need to contact Pixelle IT and have a full scan done on the device.

	a.	Welding
	b.	Using a torch
	c.	Soldering
	d.	Grinding
	e.	All of the above
9.		is a very highly damaging contaminant in pulp and papermaking and it can enter our system anywhere
	_	out the paper making process. We ask that you monitor and pick up this contaminate if you see it in
	•	ork areas.
	a.	Plastic
		Metal
	C.	Cloth
10.		parricade tape shall not be used in the mill, only cloth is permitted. Where can you obtain cloth type
	barricac	·
		Storeroom
	b.	Security Office
11.	Prior to	bringing chemicals on site, the Contractor will:
	a.	Provide SDS for each chemical
	b.	Provide an estimate of the quantity of all materials brought on –site.
	c.	Complete a material inventory form available through the Env. Dept
	d.	All of the above.
12.	Do not	dispose of batteries or light bulbs in the mill trash. Bring all used batteries to theand ask for
	assistan	ce in recycling of batteries.
	a.	Security Office
	b.	Storeroom
	C.	Test Lab
13.	Used oi	s must be managed properly according to EPA regulations. Collect all used oil in a closed container. The
	EPA req	uires all used oil to be labeled as:
	a.	Used Oil
	b.	Waste Oil
14.	Hard ha	ts will be worn:
	a.	Only in the boilerhouse
	b.	On all maintenance down days and outages.
15.	Safety s	hields are required on all safety glasses.
	a.	True
	b.	False

8. A hot work permit is required for:

16.	Hearing	protection is mandatory:
	a.	Only on down days and when the area is noisy
	b.	In all operating areas including machine down days
17.	If you he	ear the evacuation alarm you should evacuate the building and meet:
	a.	Along the edge of the river
	b.	In the corner of the parking lot by the yellow pole building.
	c.	In the visitor parking lot
18.	The max	kimum speed limit in all parking lots ismph.
	a.	35
	b.	15
	C.	25
19.	If there	is an emergency situation and you need immediate help what is the very first thing you should do?
		Use your cell phone to call for help
	b.	Pull the nearest fire alarm box
	C.	Scream very loud
20.	Hi-visibi	lity vests are required in Stock Preparation and the warehouse due to tow motor traffic.
	a.	True
	b.	False
21.	Fall prot	tection is required at an unprotected height offeet.
	a.	2
	b.	4
	c.	6
22.	Contrac	tors entering a confined space shall supply their own:
	a.	Air quality testing/monitoring equipment
	b.	A confined space entry permit
	C.	Ventilation and lighting equipment
	d.	A harness and lifeline
	e.	All of the above
23.	If I am ir	n a hurry I can cut across and walk between two connected rail cars.
	a.	True
	b.	False
24.	If a haza	ardous waste spill occurs:
	a.	Wash it down the nearest process sewer
	b.	Stop the release if this can be done safely and contact the mill environmental people
	c.	Contact your project manager who will inform the appropriate Pixelle team member

(ex. Lunch bags, beverage containers, etc.) 29. Portable electrical equipment and extension cords must be inspected prior to usage and must be grounded with three-prong type plug. a. True b. False 30. All combustibles must be removed at a distance of at least	you could be injured by: a. Unexpected start-up of the equipment b. Release of stored energy
 a. Unexpected start-up of the equipment b. Release of stored energy c. All of the above. 26. Only this type of ladder is allowed on Pixelle sites: a. Metal b. Fiberglass c. Plastic 27. What type of barricade can you enter if you are aware of the identified hazard? a. Yellow Caution Tape b. Red Danger Tape 28. Under what circumstances may a contractor employee dispose of waste at the Stevens Point mill a. In order to dispose of wastes, the contract employee must have prior approval except for general trasi (ex. Lunch bags, beverage containers, etc.) 29. Portable electrical equipment and extension cords must be inspected prior to usage and must be grounded with three-prong type plug. a. True b. False 30. All combustibles must be removed at a distance of at least feet from a hot work area. a. 25 b. 35 c. 6 d. 60 31. If you want to cross a blue line on the floor you need to: a. Be accompanied by an authorized team member; 	a. Unexpected start-up of the equipmentb. Release of stored energy
 b. Release of stored energy c. All of the above. 26. Only this type of ladder is allowed on Pixelle sites: a. Metal b. Fiberglass c. Plastic 27. What type of barricade can you enter if you are aware of the identified hazard? a. Yellow Caution Tape b. Red Danger Tape 28. Under what circumstances may a contractor employee dispose of waste at the Stevens Point mill a. In order to dispose of wastes, the contract employee only has to find the proper location b. In order to dispose of wastes, the contract employee must have prior approval except for general trasi (ex. Lunch bags, beverage containers, etc.) 29. Portable electrical equipment and extension cords must be inspected prior to usage and must be grounded with three-prong type plug. a. True b. False 30. All combustibles must be removed at a distance of at least feet from a hot work area. a. 25 b. 35 c. 6 d. 60 31. If you want to cross a blue line on the floor you need to: a.
