

UniTherm® Ticket/Tag

UniTherm® Ticket/Tag is a heavyweight thermal transfer sheet designed for tag and ticket applications. These designs are specified by caliper and are run to caliper targets and limits. This grade features a smooth surface combined with coating chemistry that enhances thermal transfer print quality and bar code durability. Reverse side coatings to help create a flat and balanced sheet, benefiting printability and holdout.

FEATURES AND BENEFITS

- Coatings designed for thermal transfer printing
- Smooth surface results in complete printhead contact
- Good dimensional stability for flatness
- Run to caliper for controlled thickness
