

5 TIPS TO SAFELY REOPENING YOUR LAW OFFICE

OFFICE ACCESS

Decide how many people can be in the office at one time and prioritize the list. Don't forget to check with building management.

STAYING HEALTHY

Outline in-office safety. Disinfecting high touch areas and hand washing are always a good idea. Decide what's best in terms of masks.

KEEP AN EYE ON IT

Monitoring the health of all employees is critical. Give everyone an easy and risk-free way to let you know if they are not well.

THE BEST OFFENSE IS A GOOD DEFENSE

How did your pandemic go? What worked and what didn't? Now is the time to make any adjustments. Who knows what's next?

GET FEEDBACK

Check in with the team personally. Who knows what each person is dealing with at home. Give people the option to talk about what's best for them and their family, right now.
