

Desktop Show and Tell

20 Minutes Total

INSTRUCTIONS

- Emcee makes a toast introducing the activity, Desktop Show and Tell. Explain to the participants that they will be choosing an object on their desk (or nearby) to share and talk about within a small group.
- Give everyone a few minutes to find an object they want to share.
- Make another toast and instruct the participants to break up into small groups (3-5 people).
- Once the small groups have formed, each person will share the object they've chosen from their desk with their group.
- Each person should spend around 2-3 minutes sharing their object and then answer questions for another 2-3 minutes. Ideally, these objects should be something that represents a part of each person's life or something interesting about them!
