

Recognition Moments

10+ Minutes Total

INSTRUCTIONS

- The host (or emcee) comes prepared with thoughtful, appreciative things to say about each participant.
- Emcee makes a toast and explains that they want everyone to participate by sharing feedback on what each person does well for the company and the impact their work has (topic of recognition can be any format).
- While the host is sharing appreciation for a person, the rest of the room can add their positive feedback for them in comments within the chat box.
- The result: a meaningful 1-2 minute moment for a team member to be publicly recognized and appreciated both verbally and in writing from his/her peers.
- The host can then copy the chat comments to post in the Preciate Recognition Activity Feed or any intranet site applicable.
- Example: "Darren is a key member of the sales operations team. He is able to get targeted reporting out to enable sales success" At the same time, participants will chat things like "Hard-working, energetic, sales reporting genius..."
