

Maximize the Value of Your Microsoft 365 Licenses

See what Spyglass MTG can do for you

The Challenge

Decisions around software licensing can have a significant impact on a company's budget. Unsure whether O365 E3 or O365 E5 is the best plan for your organization? Wondering what features are included with which license type? These are just some of the key questions to consider when thinking about your Microsoft license purchases.

The Solution

By leveraging our 15+ years navigating Microsoft licensing options, Spyglass can help you design and execute the licensing model that works best for your organization. In addition, Spyglass MTG's CSP offering includes access to an online portal which allows YOU to manage your own subscriptions and licenses.

The Benefits

Subscriptions and Licenses are modified in the portal and will update to your tenant within a matter of minutes thereby giving you the ability to add licenses as needed for new hires or remove licenses no longer in use.

All license costs are prorated up to the day they are added and removed from the portal, so you are no longer paying for licenses you do not need.

Leveraging our CSP ability to provide discounted license purchases ensures you are receiving the highest value at the lowest cost.
