

# Power BI Jumpstart

Foster a Data Driven Culture for your Organization

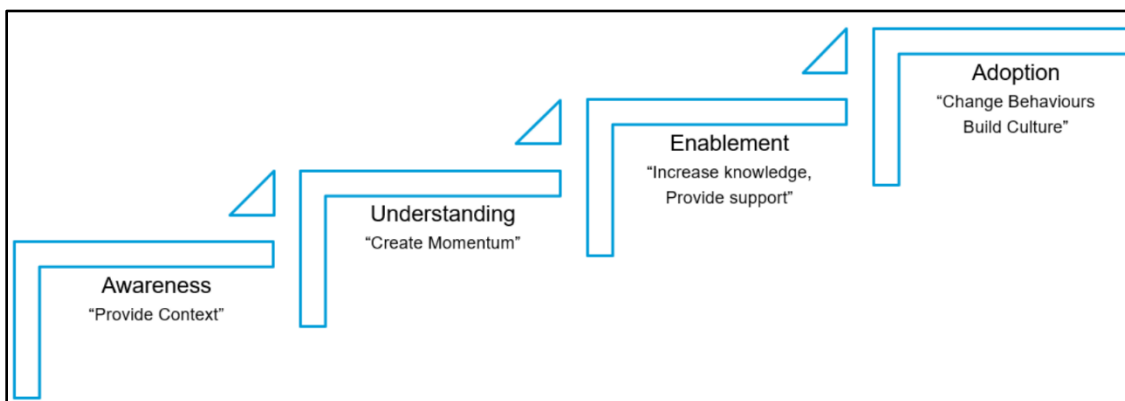

## The Problem

Among the growing impulses which organizations use to decide to adopt Power BI, is the strive to become a data driven business. A data driven business is an organization that has come to the realization that decisions motivated by facts produce better outcomes than decisions driven by predisposition. Many organizations want to adopt Power BI, but few know where to start. Self-service Power BI adoption can be very challenging.

## The Solution

With this Power BI Jumpstart program, Spyglass will help your organization build an effective culture around Power BI. Through internal training, workload deployment, and office hours, Spyglass will set you up on your journey to becoming a data driven business. In just roughly 8-12 weeks, you could foster a data driven culture for your organization!

## Stages of Technology Adoption:

## Program Deliverables

- *Envisioning Workshops*
  - Output Document with findings, notes, vision, and plan
- *Training & Culture Building Workshops*
  - Enabling users to subscribe to internal training
- *Final Execution Report*
  - Proposed implementation priorities, timeline, and budget
- *Power BI Initial Workload Deployment*
  - Migrate your first Power BI workload and develop your technical skills

## About Spyglass MTG

For over 15 years, we've closely partnered with Microsoft to bring their vast and expanding suite of enterprise solutions to our clients. We leverage proven methodologies, migration tools and expert consultants to architect, build, deploy, migrate to, and manage Microsoft solutions. Whether you are deploying or upgrading M365, implementing Azure, deploying Teams, building a SharePoint Site, developing a Security or Governance Model, designing a Modern Warehouse or BI Solution, or developing AI apps on the Power Platform, we can help!
