Microsoft Security Assessment

Simplify and Fortify Security with Microsoft Security Solutions

The Problem

In today's climate, effective security is one of the most important factors in a business. It is crucial to make sure that your information, equipment, data, and much more is secure. However, since there are so many factors that play into overall security, it is easy to miss important risks.

The Solution

Spyglass's Microsoft Security Assessment captures your current security state and documents a plan to safeguard your entire organization with integrated security, compliance and identity solutions built to work across platforms and cloud environments. Spyglass will conduct a Zero Trust Review across four security pillars of Identity & Access Management, Threat Protection, Information Protection, and Cloud Security.

Spyglass will deliver a Microsoft Office 365 Security Assessment in 3 weeks for a fixed fee of $20k. Optional monitoring of your environment during engagement for real threats and attacks can be added for an additional $5k fee.

Program Approach

- Discovery Sessions
- Zero Trust Review across:
  - Identity & Access Management
  - Threat Protection
  - Information Protection
  - Cloud Security

Program Deliverables

- Zero Trust Security Pillars Report
- Risks and Remediations Report
- Remediation Plan
- Demonstration of Microsoft Defender Integrated Suite
- Optional Monitoring Report with Identified Attacks and Suggested Remediations

Benefits of Microsoft Integrated Security:

Identity and access management   Threat protection   Information protection   Security management
