

Weather Stations Login Information:

Go to [WSU's ag weather net site](#), click the "sign in" link, and enter the following:

Username dwilkinsboise

Password IdahoW1nes

The other way to access the data is through the cloud server (supported by METER who runs the subscription service).

<https://zentracloud.com/accounts/login/>

The email address (username) to use is **IDVineyardWx@gmail.com**
and the password is "**I+L1ke+W1ne!**"

The stations update hourly - because some have signal strength issues, they may skip an hour here or there but always catch up. I installed three stations at Sawtooth recently and those will be added to the site, as well. They are already in that 22 total stations.
