

FOTOFLEX™ WRISTBANDS

FotoFlex™ is the world's first stretchable wristband that uses four-color imprinting of digital graphics, allowing you to turn your rubber wristband into a mini-billboard for maximum promotional effect. Each wristband is made to order and guarantees durable, crisp images that make for a highly visible product. The product is unique in that the imprint cracks when stretched, but it does not flake and will return to its original near photo quality when relaxed.
