

Senseye PdM Complete

A PdM solution so effective, it's guaranteed

Senseye does the hard work, to deliver and accelerate your predictive maintenance journey, guaranteed

Benefits of Senseye PdM Complete

With a process-based approach to our solution, Senseye PdM Complete helps reduce the risks involved in achieving Predictive Maintenance success and goes further by financially guaranteeing it. This allows your teams to focus on their core responsibilities and your expertise in Predictive Maintenance to grow organically and exponentially.

- Turn-key, worry free
- Guaranteed Return on Investment within 12 months
- Leverage Senseye's deep domain and project expertise
- No in-house data scientists or condition monitoring engineers required
- Senseye's partner ecosystem at the ready to fill any gaps in data or communications

"Successful Predictive Maintenance requires multiple disciplines working together to enact change. Senseye has for some time been a leader in the Machine Health Management area and helps to ensure that teams can have the best tools they need to drive maintenance optimization"

David Metcalfe, CEO, Verdantix

Senseye PdM Complete

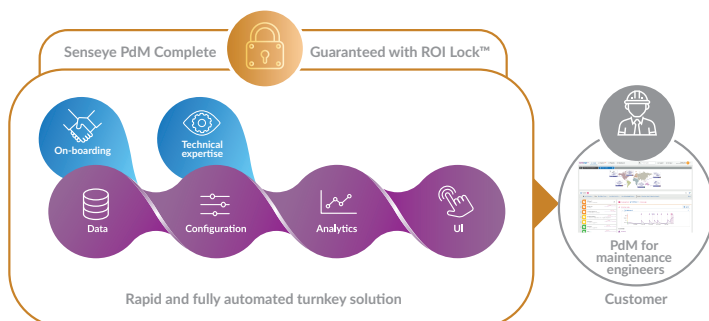

Senseye PdM Complete™ is a combination of award-winning PdM software with an expert managed service to set up and guide you on the journey to a full Return on Investment. It is backed by Senseye ROI Lock™ to guarantee success within 12 months, without you needing in-house data science expertise.

Leverage Senseye's deep domain expertise in condition monitoring to guide your Predictive Maintenance transformation. You get all of the benefits of our world-leading PdM product, and a dedicated team of experts to ensure your staff are trained and motivated to capture maintenance efficiencies and avoid unplanned machine downtime.

Your teams drive the award-winning and easy-to-use Senseye PdM software, augmented by our Customer Success Management team - all experts in Condition Monitoring - who have honed their capabilities across diverse global projects. This offers you the best of both worlds, helping you build your internal knowledge base with our expert leadership and supervision.

It allows your maintenance and operations colleagues to focus on core responsibilities, halve unplanned downtime, and increase maintenance efficiencies, saving money and time whilst achieving a typical ROI of less than three months.

Senseye PdM Complete is the powerful combination of a software product, expert guidance, setup, support and management - all guaranteed by Senseye ROI Lock.

Guided on the journey to success:

Senseye PdM Complete has all the leading out-of-the-box capabilities you've come to expect from Senseye PdM, with Senseye guiding you to Predictive Maintenance success:

Turnkey PdM with guaranteed ROI

Senseye PdM Complete brings our industry experts to work alongside you in ensuring you have the correct guidance and advice on your Industry 4.0 Predictive Maintenance journey. Our world-leading Predictive Maintenance software is backed not only by our team of experts but also by an industry-first guarantee on project success - Senseye ROI Lock - ensuring you'll achieve a full ROI within 12 months or your money back.

Deep domain expertise

We're not just a software company. Senseye's condition monitoring experts have decades of experience and work with clients across the world in diverse industries. Senseye PdM Complete gives you access to Senseye's unique intellectual property as well as the condition monitoring experts who designed and created it.

World-class partners

We work hard to support all common industrial architectures and protocols and our partner ecosystem includes the leading industrial system integrators and suppliers. This ensures that whoever makes your machines, control and communication systems, we can get the right data for your machines.

World-beating research

All of our technology is built by us from the ground-up. We invest a lot in continuous research and development with a laser focus on machine health management. The results of our extensive research and development efforts are infused into the Senseye PdM app, which is constantly updated, ensuring you and your team are using the very best techniques and approaches available to optimize maintenance and unlock savings.
