

End of Life Notification

Mag Plus In-Tank Probe Installation Kits

Overview

Veeder-Root is committed to providing the highest quality products and services to our customers. As the world leader in the development of fueling system technology, we view product End of Life (EOL) as part of the natural cycle that drives technology evolution.

Therefore, **effective immediately** we are obsoleting:

- All 3" float kits
- 2" float kits with cable lengths 10' and 20'
- 4" float kits with cable lengths 10' and 20'

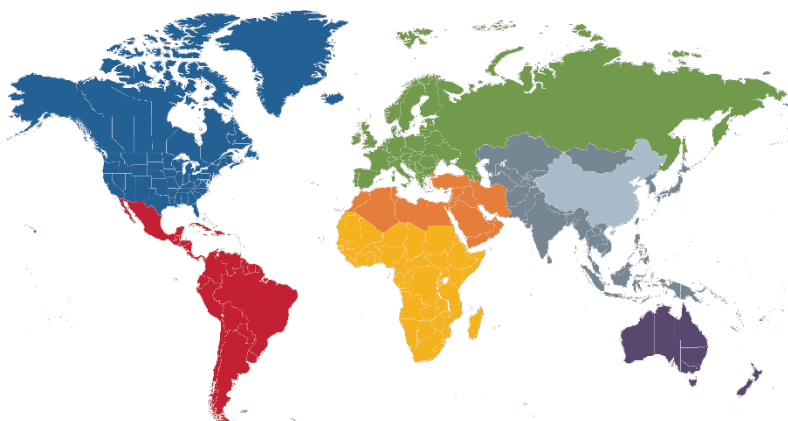

If a 10' or 20' probe cable is required, the cable may be purchased as a spare part.

Due to lower demand of these installation kits, it is no longer feasible to support these going forward.

► Targeted Market

Global Regions

	North America
	LATAM
	EU
	SSA

	MEA
	ANZ
	SEA
	China

► Transition Details

For customers currently using a 3" float kit, we recommend transitioning to a 2" float kit which is compatible with the Mag Plus Probe. Mag Plus Installation Kits will come standard with a 5' cable. If a longer cable is required, it must be purchased separately.

Please contact Customer Service at neworders@veeder.com.

See the Product Transition Information section for more information.

► Schedule for Probe Installation Kits
