WE MAKE **STUNNING WEBSITES** THAT MAKE YOU **SALES**

We're an award winning web design agency with years of experience in design and digital marketing. We know what works online and what doesn't. The founder, Caleb, started this business to share his knowledge and help small businesses with a problem he saw so many struggle with: their websites. We live and breathe small business and web design.

CLIENTS LOVE US - DOZENS OF 5 STAR REVIEWS

I wish I hired Caleb & Corbin 4 years ago when I started my business. I did the best job I could with the web designer I had, myself. Needless to say, I should have stuck to catering & let the professionals handle the site. I'm so glad I found Parrot Digital Marketing. They did a complete overhaul of my website. They did exactly what they said they would. That's how I prefer to do business. I highly recommend giving PDM a try.

Parrot Digital did an amazing job on my website! I honestly didn't even know a Wix website could look so good! They made the entire website look so much more professional.

And implemented features I wouldn't even have thought of, like integrating my Instagram account and connecting all the pages to each other.

It's MUCH better than I could have ever imagined. Best part? I didn't have to do any of the work! Putting your website in someone else's hands can be tough. But in this case it's definitely worth it.

Social Media Manager

There isn't enough good things to say about Caleb and the team at Parrot. He helped us get our website up to a presentable status and has even gone the extra mile to help give us tips and tricks (we are a young company) and has directed business our way. If you need a website or any marketing done, PDM should be your go-to!

After 5 pages and 10 products, additional pages are \$50 each, additional products are \$10 each, and additional apps (ie Events, Blog, Bookings, etc) are \$50 each. So for example, an e-commerce website with 6 pages, 15 products, and a blog would be \$999. Take a look at our competitors. Our prices are below the market rate but we deliver superior websites. That's because we want our services to be accessible to as many new and small businesses as possible. Our business is about you, not us.

FAST DELIVERY

Typically the full process takes 6 weeks. We can start on a new project within two weeks of a signed proposal and deliver it 4 weeks after that. Often, we finish weeks ahead of schedule but we always like to have some cushion in case anything unexpected comes up.

EASY PROCESS

1. After you request a meeting, we'll set up a phone or video call with you.
2. After the call, we'll create and email you a proposal with an overview of the project, scope of work, timeline, what we need from you, budget, and terms.
3. If you're happy with the proposal, you can e-sign at the bottom.
4. At that point, we will invoice you for half of the total project cost as a deposit.
5. Then, we will send you a handful of forms that will allow us to gather all the information we need to ensure your project is a success.
6. Once we have those, we will start on your project and notify you when it is complete and ready for revisions.
7. After a maximum of two rounds of revisions, we launch the project.
8. You pay the remainder of the project fee.
9. Any marketing or maintenance agreements go into effect.
10. Your business takes off!
