

Orbita Outreach

Automate outreach & close care gaps at scale.

The Orbita Outreach module helps organizations deploy intelligent virtual assistants that proactively communicate reminders, confirmations, assessments, and tasks. Automate outreach to patients and close care gaps at scale by deploying AI-led cascading communication campaigns across multiple channels including SMS, email, and phone.

520

hours saved
per week

Proactive Communications

Target and manage patient populations based on personal traits such as treatments or conditions or administrative traits like missed appointments or upcoming appointments.

70%

recipients confirmed
receiving message

Omnichannel Cascading Campaigns

Increase engagement with patients and consumers with automated outreach to patients on their preferred digital channel or across multiple channels and assessments.

100K

patients notified
of negative covid test

Outreach Manager & Insights

Manage and evaluate the effectiveness of the campaigns and update your strategy in real-time with a comprehensive and streamlined analytical dashboard.
