

# Combat COVID-19 with up to the minute testing notifications

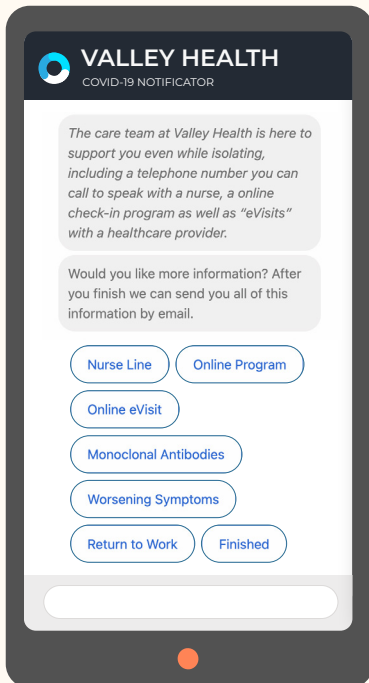

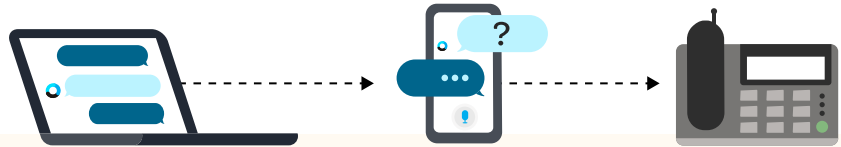

See how major U.S. healthcare systems use Orbita to automatically communicate test results to thousands daily with engagement rates of 80%

**400,000+**  
Patients and staff notified

**80%**  
Engagement

**520**  
hours saved per week

## Leverage Orbita Outreach, an AI-powered, HIPAA-compliant virtual assistant that:

- Delivers personalized test results to patients and employees within 1 min of results received
- Supports omnichannel communication over email, SMS text messaging, and voice call (with call-back option)
- Includes instructional content and sends a follow-up email for positive test results - guiding patients on care information, in-clinic care, telehealth, and return to work options
- Supports multiple languages
- Can be up and running in days, not weeks
