

# OrbitaCONNECT

Empowering Healthcare Providers

The COVID-19 pandemic has disrupted the delivery of healthcare while increasing reliance on digital tools. Orbita's arsenal of conversational AI solutions augments existing sales, remote learning, and clinical decision support tools, helping pharmaceutical companies to adapt to key challenges surfaced during this unique time.

## Provide HCPs with 24/7 access to latest medical & clinical information at their moment of need

- Brand awareness
- Clinical support and education
- On and off-label FAQs
- Multilingual support
- Workflow efficiencies

## Increase engagement opportunities and/or reduce costs by augmenting sales process

- Provide digital training tools for salesforce
- Replicate services offered by sales teams at in-person meetings (during pandemic and beyond)
- Gather insights & data to inform future sales decisions

## Escalate questions with call center integration

- Complex inquiries
- Adverse event detection
- Product complaints
