**Dr. W. Markiewicz**

Director R&D

Neschen AG

**Preconditions:**

All materials of this quality certificate are designed and manufactured under ISO 9001:2008 by Neschen AG in Germany. The Neschen AG grants the removability of these components within 2 months when applied in accordance with the technical bulletin and processing instructions. All tests conducted under controlled climatic conditions, 23/50-2, DIN 50014. If the Neschen AG is responsible of a product defect, we will bear all costs up to the amount of the goods.

Complete details of the quality certificate are provided in the technical datasheet and in instruction bulletins on the homepage [www.neschen.com](http://www.neschen.com)
