## Admissions & Enrollment

A flexible, scalable solution to enrollment challenges that reduces error and time spent on registration while increasing student enrollment for your district or school. Track campaigns, create lotteries, and upload documents for enrollment verification.

The Admissions & Enrollment Module provides a branded community portal for access to prospective students and their families.

- Intuitive tracking boards allow enrollment staff to manage tasks, stalled enrollments, and the acceptance pipeline from a single view.

- One click enrollment of a single student or multiple.

- Lottery and waitlist management with multiple priority, deadline, and continuous enrollment capabilities.
