OUTLOOK SEMINAR 66 SEMI-ANNUAL CONFERENCE

EVENT AT A GLANCE

ACT's seminars are held twice per year for the benefit of our subscribers and the industry as a whole. Attendees to our events include industry leaders and decision-makers to OEMs, suppliers, transportation, and investment firms in the commercial vehicle industry. ACT's customer base and guest speakers are high-level industry experts, representing the upper management and C-suite of their respective organizations.

Each event is an opportunity for ACT Research to meet with clients, prospectus, and key industry players over a three-day period. Each event gives the opportunity for ACT to share its best-in-class data and forecast in presentation format, as well as featuring guest speakers to dive into topics of interest and note for the benefit of attendees. Media is invited to attend and we often receive coverage of the event from Transport Topics, FreightWaves, and more.

We hope that you will consider joining us as a guest speaker for ACT's 66th Outlook Seminar next February 22-24, 2022. Your knowledge and expertise will benefit the event and showcase your organization to key industry leaders. Thank you for your consideration.

"We really look to the [ACT] seminars to really keep the finger on the pulse of the industry and help us understand what ACT is seeing from a market trend perspective."

- Bill Cortright, Jacobs Vehicle System

"I would recommend ACT Research to anyone that's looking for in-depth insight into what's happening in the commercial vehicle markets. The expertise and knowledge that goes into the service they provide, there's not a better solution, in my opinion, for commercial vehicle data than ACT Research."

- Jeff Trent, Mahle

"These seminars and the information [provided] is very helpful; it helps us connect the dots in our business. We're concerned about what's going to happen in the marketplace, is freight going up or down...we need to know how our customers are going to be impacted. We really need this information."

- Kirk Mann, Hitachi Capital

"...it's a microcosm of what the industry is all about."

- Jason Altwies, ConMet
