Disclaimer

- This presentation was current at the time it was published or uploaded to the web. Medicare policy changes frequently, so links to the source documents have been provided within this document for your reference.
- This presentation was prepared as a service to the public and is not intended to grant rights or impose obligations. This presentation may contain references or links to statutes, regulations, or other policy materials. The information provided is only intended to be a general summary. It is not intended to take the place of either the written law or regulations. We encourage readers to review the specific statutes, regulations, and other interpretive materials for a full and accurate statement of their contents.

Today's Agenda

- Welcome and Introductions.
- What is the Skilled Nursing Facility (SNF) Quality Reporting Program (QRP)?
- Minimum Data Set (MDS) Submission and Reporting Requirements.
- Certification and Survey Provider Enhanced Reports (CASPER).
- Determining Compliance with the SNF QRP.
- Resources.
- Q&A Session.

Objectives

- Recall the basics of the SNF QRP.
- Identify the MDS submission requirements and data submission threshold.
- Describe the steps related to MDS data submission and acceptance.
- Discuss the application of various CASPER reports.
- Describe the impact of SNF QRP data submission on the Annual Payment Update (APU).
- Identify one resource for providers related to each of the topics presented.

Today's Presenters

Heidi Magladry, R.N.
SNF QRP Coordinator
Centers for Medicare & Medicaid Services

Acronyms in This Presentation

- APU – Annual Payment Update
- ASAP – Assessment Submission and Processing
- CASPER – Certification and Survey Provider Enhanced Reports
- CCN – CMS Certification Number
- CMS – Centers for Medicare & Medicaid Services
- CY – Calendar Year
- FVR – Final Validation Report
- FY – Fiscal Year
- IMPACT Act – Improving Medicare Post-Acute Care Transformation Act

CCN
ASAP
IMPACT ACT
CY
CASPER
APU
CMS
FY
FVR

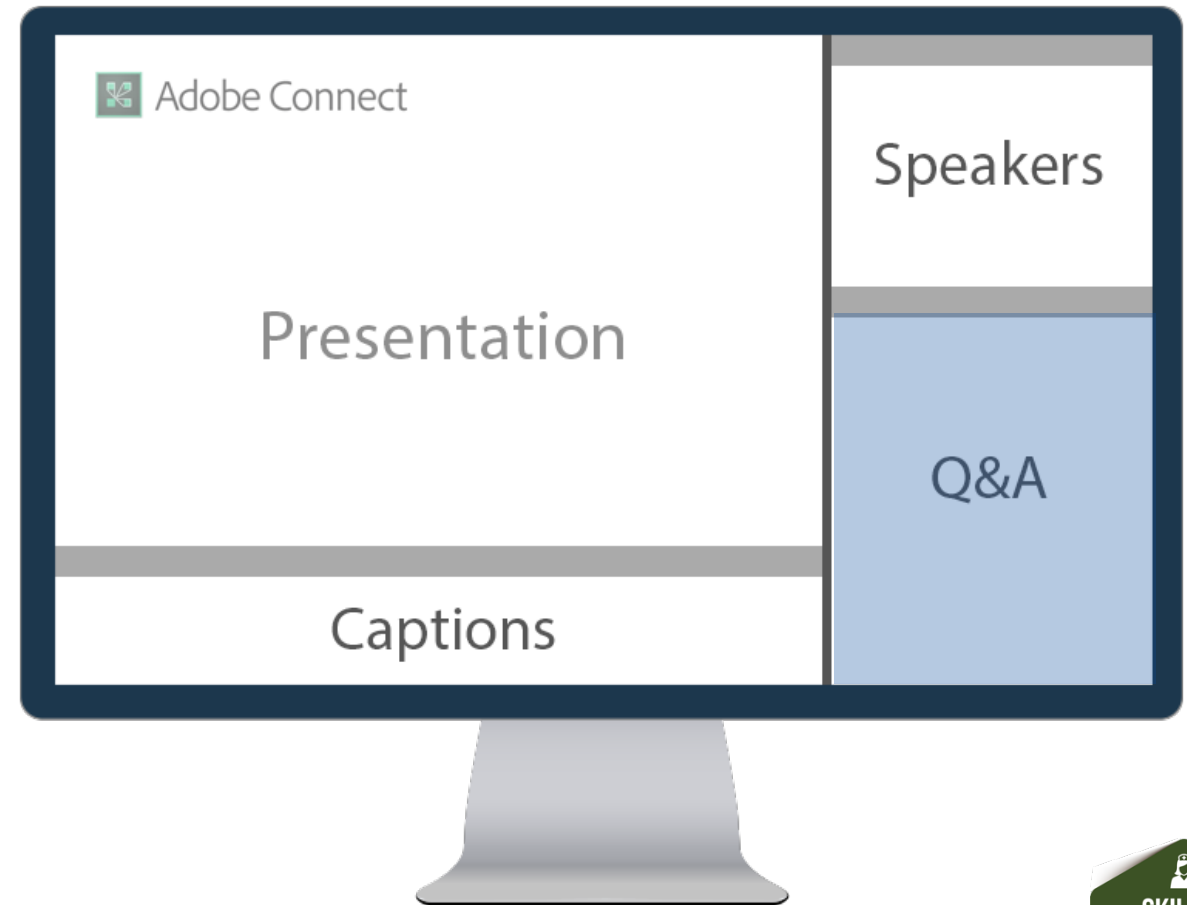

Acronyms in This Presentation (cont.)

- MAC – Medicare Administrative Contractor
- MDS – Minimum Data Set
- PHI – Protected Health Information
- PPS – Prospective Payment System
- PTR – Provider Threshold Report
- QIES – Quality Improvement and Evaluation System
- QM – Quality Measure
- QRP – Quality Reporting Program
- QTSO – QIES Technical Support Office
- SNF – Skilled Nursing Facility

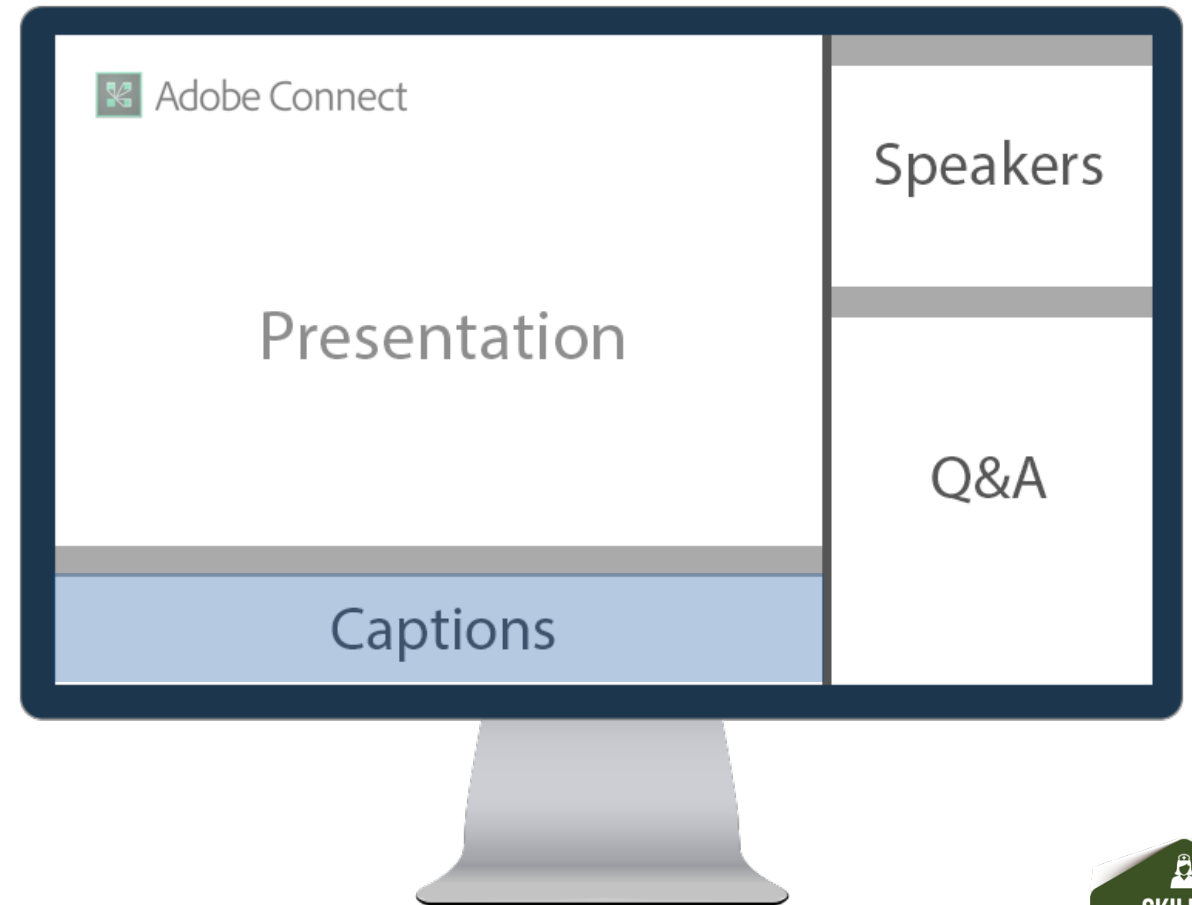

Help During the Presentation

- If you need any technical assistance during this webinar, please let us know using the Q&A panel to the right of the presentation.
 - You may also ask any content-related questions you may have during this presentation via the Q&A panel.

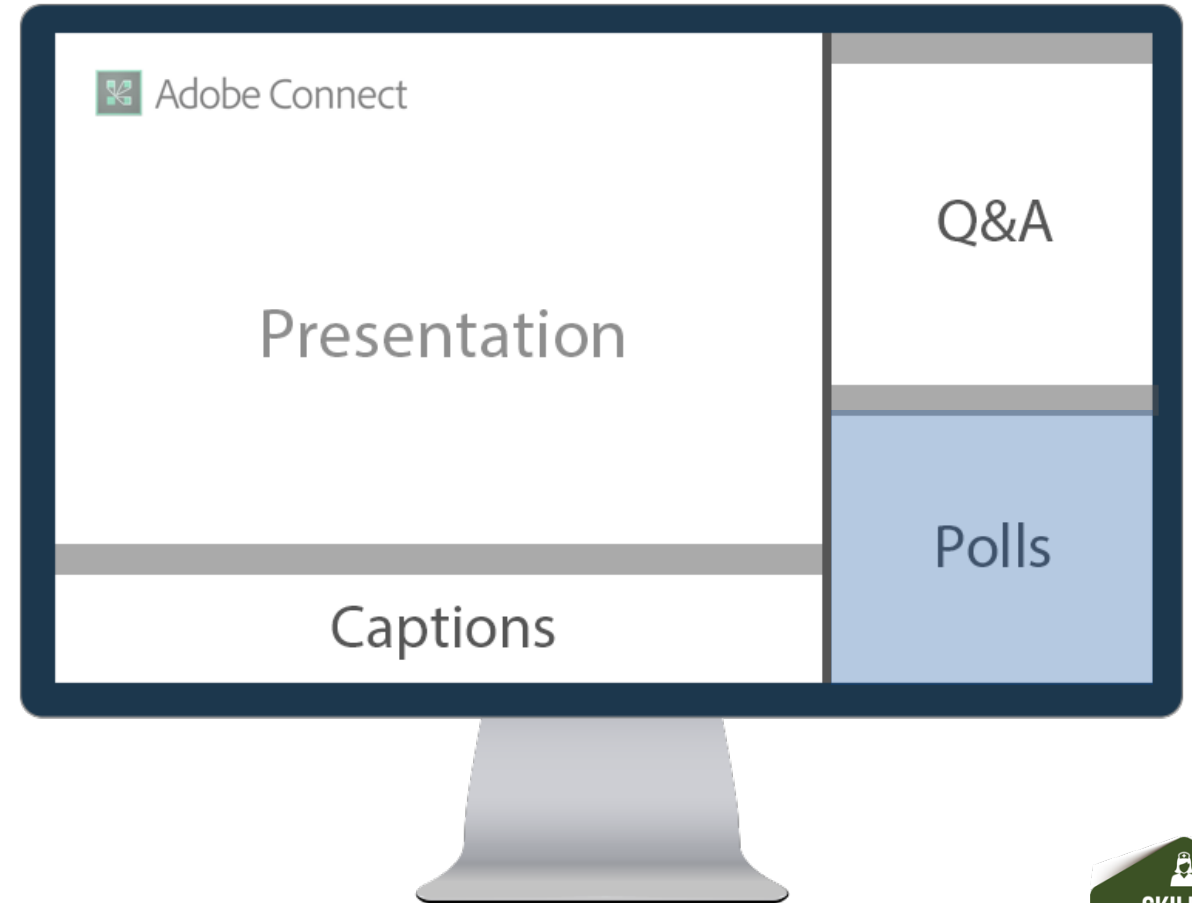

Closed Captioning Is Available

- Closed captioning is available during this webinar. Captions will appear in the panel directly beneath the presentation.
 - If you need any technical assistance with closed captions, please let us know using the Q&A panel.

Interactive Polling

- During this presentation, we will occasionally poll the audience. When polls are activated, they will appear in the panel to the lower right.
 - To participate, simply select your desired response.
 - You will have some time to respond to each question.

Q₁

How many people (including you) are joining this webinar together in the same room?

- A. Just me – I am the only one participating.
- B. Two people.
- C. Three or four people.
- D. Five or more people.

Q₂

Which President signed Medicare into law?

- A. Richard M. Nixon.
- B. Lyndon B. Johnson.
- C. Dwight D. Eisenhower
- D. Gerald Ford.

Q₃

Who was enrolled as the very first Medicare beneficiary by President Johnson?

- A. Harry S. Truman.
- B. Claudia Alta “Lady Bird” Johnson.
- C. Richard Nixon.
- D. Betty Ford.

What Is the SNF QRP?

What is the SNF QRP?

- In response to reporting requirements identified in the Improving Medicare Post-Acute Care Transformation (IMPACT) Act of 2014, the Centers for Medicare & Medicaid Services (CMS) established the SNF QRP in fiscal year (FY) 2016.
- The IMPACT Act requires public reporting of quality measures (QMs) which relate to the care provided in SNFs as well as the submission of standardized assessment data elements by post-acute care settings, including SNFs.
- The SNF QRP promotes the delivery of person-centered, high-quality, and safe care by SNFs.

CMS Quality Goals

- Quality healthcare for people with Medicare is a high priority for CMS.
- CMS defines quality as having the following properties or domains:

Effectiveness

- Providing care processes and achieving outcomes as supported by scientific evidence.

Efficiency

- Maximizing the quality of a comparable unit of health care delivered or unit of health benefit achieved for a given unit of health care resources used.

Equity

- Providing health care of equal quality to those who may differ in personal characteristics other than their clinical condition or preferences for care.

Patient Centeredness

- Meeting patients' needs and preferences and providing education and support.

Safety

- Preventing or reducing risk for actual or potential bodily harm.

Timeliness

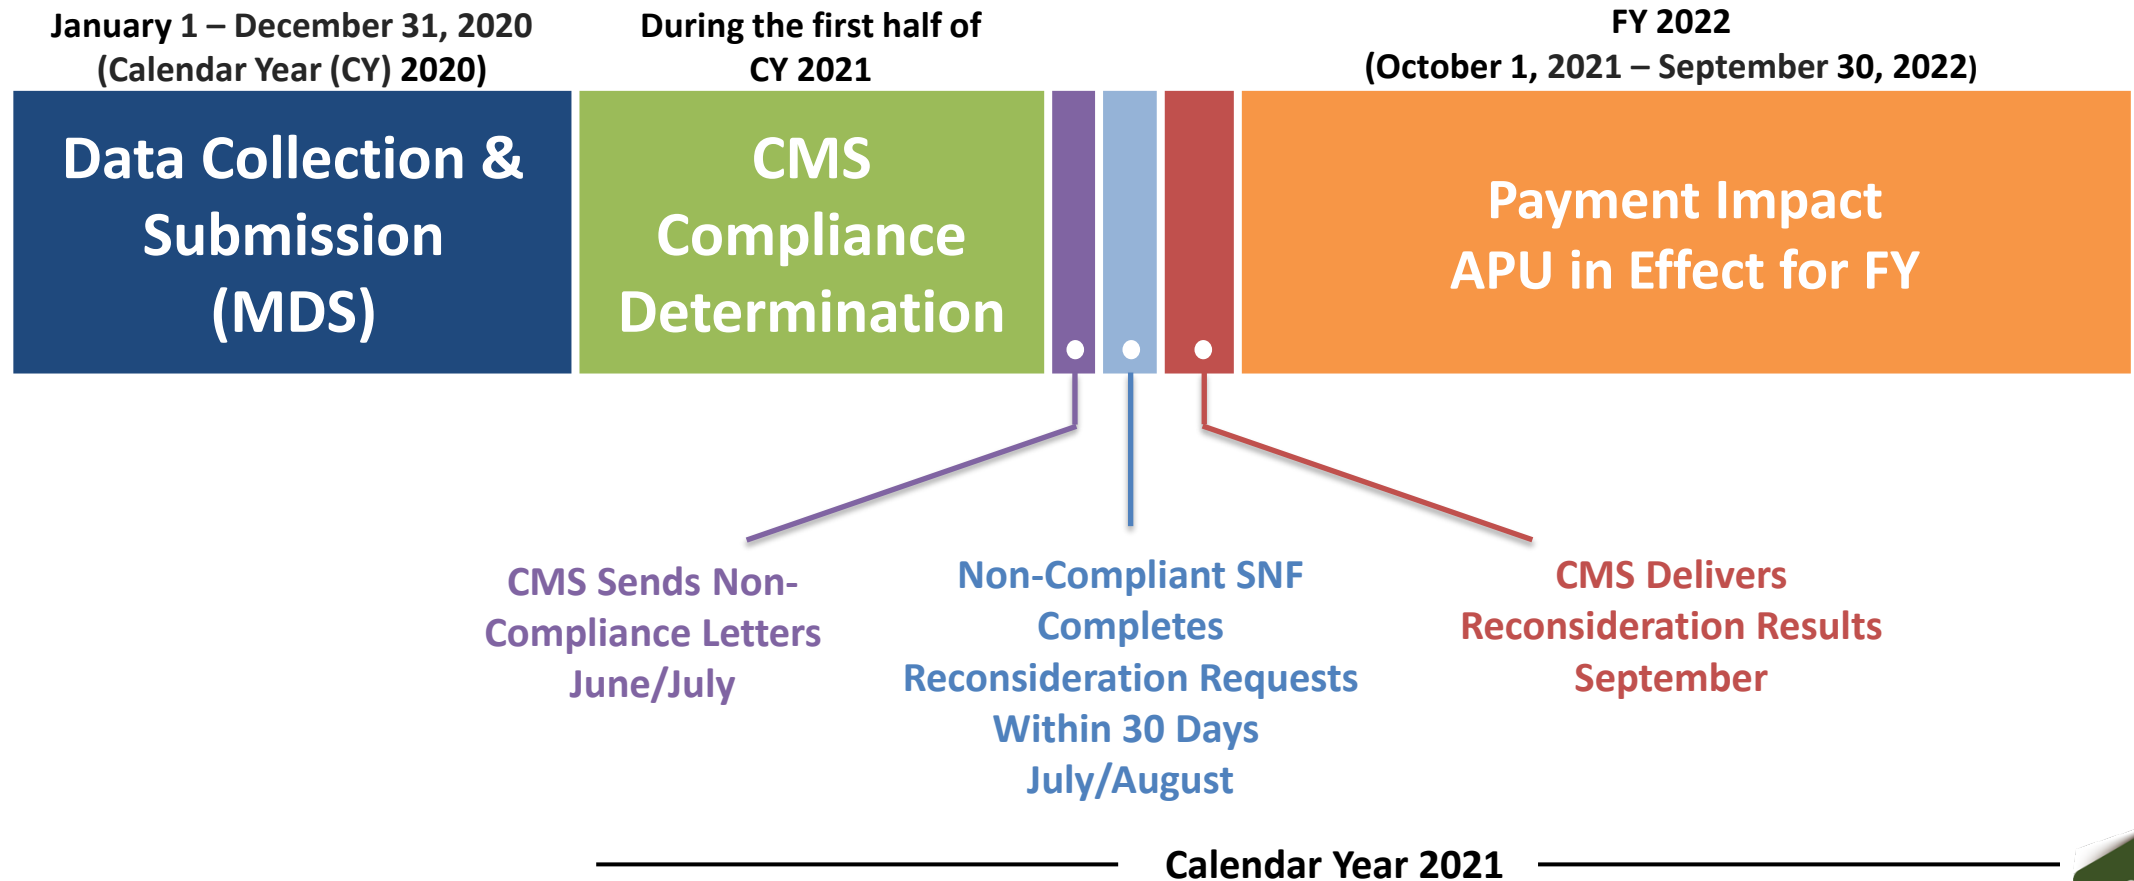

- Obtaining needed care while minimizing delays.

SNF QRP Requirements

- All Medicare-certified SNF providers are required to collect and submit data from the MDS at the start of, and upon discharge from, a Medicare Part A SNF stay.
 - Includes consecutive time in the facility starting with a Medicare Part A admission through discharge from Medicare Part A or death.
- MDS data are required to be submitted and accepted within the threshold and according to the established submission timelines.

Relationship Between Quality Reporting and APU: SNF QRP Life Cycle

MDS Submission and Reporting Requirements

The Minimum Data Set (MDS)

- The MDS is a core set of screening, clinical, and functional status data elements, including common definitions and coding categories, which forms the foundation of a comprehensive assessment for all residents of nursing homes certified to participate in Medicare or Medicaid.
- The data elements in the MDS standardize communication about resident problems and conditions:
 - Within nursing homes.
 - Between nursing homes.
 - Between nursing homes and outside agencies.

The MDS

- The MDS is used for many purposes, including:
 - Care planning.
 - Survey and Certification.
 - Payment via the Prospective Payment System (PPS).
 - Quality.

MDS Submission Requirements for SNF QRP

- All Medicare-certified SNF providers are required to submit:
 - MDS – Admission records (5-Day PPS).
 - MDS – Discharge records (Part A PPS Discharge).
- MDS data are collected and submitted on all residents admitted to a Medicare Part A SNF stay.

MDS Submission Requirements for SNF QRP (cont.)

- The data submitted for the SNF QRP QMs are derived from two sources:
 - MDS:
 - Used to capture data elements used in the calculation of 10 assessment-based QMs.
 - Medicare fee-for-service claims:
 - Provide information for three claims-based QMs.

MINIMUM DATA SET (MDS) - Version 3.0
RESIDENT ASSESSMENT AND CARE SCREENING
Nursing Home PPS (NP) Item Set

Section A Identification Information

A0050. Type of Record

Enter Code

1. Add new record → Continue to A0100, Facility Provider Numbers
2. Modify existing record → Continue to A0100, Facility Provider Numbers
3. Inactivate existing record → Skip to X0150, Type of Provider

SNF QRP Assessment-Based QMs

- Changes in Skin Integrity Post-Acute Care: Pressure Ulcer/Injury.
 - **Lower** percentages are better.
- Percentage of SNF residents whose medications were reviewed and who received follow-up care when medication issues were identified.
 - **Higher** percentages are better.
- Percentage of SNF residents who experience one or more falls with major injury during their SNF stay.
 - **Lower** percentages are better.

SNF QRP Assessment-Based QMs (cont.)

- Percentage of SNF residents whose functional abilities were assessed, and functional goals were included in their treatment plan.
 - **Higher** percentages are better.
- Percentage of residents who are at or above an expected ability to care for themselves at discharge.
 - **Higher** percentages are better.
- Percentage of residents who are at or above an expected ability to move around at discharge.
 - **Higher** percentages are better.

SNF QRP Assessment-Based QMs (cont. 1)

- Change in residents' ability to care for themselves.
 - **Scores above 0** mean that the self-care score has improved and **scores below 0** mean that the self-care score has worsened.
- Change in residents' ability to move around.
 - **Scores above 0** mean that the mobility score has improved and **scores below 0** mean that the mobility score has worsened.
- Transfer of Health Information to the Provider Post-Acute Care.
 - **Higher** percentages are better.
- Transfer of Health Information to the Patient Post-Acute Care.
 - **Higher** percentages are better.

SNF QRP Claims-Based QMs

- Rate of successful return to home and community from a SNF.
 - **Higher** rates are better.
- Rate of potentially preventable hospital readmissions 30 days after discharge from a SNF.
 - **Lower** rates are better.
- Medicare Spending Per Beneficiary for residents in SNFs.
 - **Displayed as a ratio.**

MDS Data Submission Deadlines

- There are individual MDS data submission deadlines that must be met to be in compliance with the SNF QRP.
- The data collection year runs from January to December, and submission deadline quarters are as follows:

Calendar Year Data Collection Quarter	Data Collection Submission QRP	Submission Deadline*
Quarter 1	January 1 – March 31	August 15
Quarter 2	April 1 – June 30	November 15
Quarter 3	July 1 – September 30	February 15
Quarter 4	October 1 – December 31	May 15

*This data must be reported by 11:59 pm local time zone on the 15th of the months specified.

MDS Data Submission Threshold

- There is a 2-year delay between data collection and the affected FY application of the APU. For example, data collected in CY 2021 will be used in support of the FY 2023 APU.
- MDS data need to be submitted and accepted into the Quality Improvement and Evaluation System (QIES) Assessment Submission and Processing (ASAP) system within the acceptable threshold.
- The threshold for SNF data submission is as follows:
 - 80% of MDS assessment data submitted must contain 100% of the required quality data elements for the eight assessment-based QMs.

80% of assessments submitted must contain all required QM data elements

MDS Data Submission Threshold (cont.)

- SNFs that fail to submit the required data by the data submission deadlines will be subject to a 2-percentage point reduction in their APU for the affected FY.

MDS Records From	Submission Threshold	Reporting Year
CY 2021	80%	FY 2023
CY 2022	80%	FY 2024
CY 2023	80%	FY 2025

Temporary SNF QRP Exceptions Due to COVID-19

Exceptions ended
on June 30, 2020

- Temporary changes to the SNF QRP data submission requirements were employed to assist SNFs as they directed resources toward caring for residents and ensuring the health and safety of residents and staff.
- CMS granted an exception to the QRP reporting requirements for the quarters below:

Quarter	MDS Data Submission
Quarter 4 (October 1 – December 31, 2019)	Optional
Quarter 1 (January 1 – March 31, 2020)	Excepted
Quarter 2 (April 1 – June 30, 2020)	Excepted

Impact of SNF QRP Exceptions Due to COVID-19 on Public Reporting

- Even though the data submission for Q4 2019 was optional, any data submitted were used for reporting purposes.
- Because the data submission was so strong, these data were included in the measure calculations for public reporting.
- Missing data for Q1 and Q2 2020 will impact what is displayed on Care Compare for Nursing Homes; therefore, CMS developed a strategy to accommodate these excepted quarters of data.

Impact of SNF QRP Exceptions Due to COVID-19 on Public Reporting (cont.)

Quarter Refresh	Care Compare (for SNF QRP) MDS Assessment-Based Measures
October 2020	Normal refresh (includes Q4 2019 data and inaugural posting of 6 new QMs)
January 2021	Freeze
April 2021	Freeze
July 2021	Freeze
October 2021	Freeze
January 2022	Public reporting resumes*
April 2022	Normal refresh

IMPORTANT NOTICE

*To account for missing public health emergency-excepted data (Q1 and Q2 2020) – when public reporting resumes, any potential change in measure calculation methodology will be subject to notice-and-comment rule-making.

Impact of SNF QRP Exceptions Due to COVID-19 on Public Reporting (cont. 1)

- CMS is aware that Discharge assessments submitted on or after July 1, 2020, may not have a matching MDS Admission record if the admission occurred in Q1 or Q2 2020.
- This may cause an “out of sequence” warning error (909) during the submission process. Please note that despite this warning, data will still be accepted into the QIES ASAP system.
- CMS will make adjustments to accommodate any records with missing Admission assessments.
- These mismatched sets of records will not be counted or included in your SNF data calculations for Care Compare.

MDS Reporting Requirements

- To meet SNF QRP requirements, SNFs must:
 - Meet the MDS data collection requirements.
 - Submit MDS data on time per submission deadlines.
 - Ensure MDS data are accepted.

The act of submitting data does not equal acceptance.

Medicare Part A Admission: Nursing Home PPS Assessment

- Better known as the *5-Day PPS*, this is the first assessment completed when a resident enters the facility for a Medicare Part A stay. It authorizes payment, but also provides data required for the SNF QRP.
- Must be completed within 14 days after the Assessment Reference Date (A2300) and submitted and accepted into QIES ASAP within 14 days after the assessment completion date (Z0500B).

Resident	Identifier	Date
MINIMUM DATA SET (MDS) - Version 3.0 RESIDENT ASSESSMENT AND CARE SCREENING <i>Nursing Home PPS (NP) Item Set</i>

Medicare Part A Discharge: Nursing Home Part A PPS Discharge Assessment

- The *Part A PPS Discharge* is completed when a resident's Medicare Part A stay has ended, regardless of whether the resident remains in the facility or is physically discharged. This assessment provides data required to be collected on discharge for the SNF QRP.
- Must be completed within 14 days after the end date of the most recent Medicare stay (A2400C). This assessment must be submitted and accepted into QIES ASAP within 14 days after the assessment completion date (Z0500B).

Application of Percent of Residents Experiencing One or More Falls with Major Injury

- There is one SNF QRP QM, the *Application of Percent of Residents Experiencing One or More Falls with Major Injury*, which looks at all qualifying assessments within the entire SNF stay to determine whether a resident has fallen since admission.
- Since the entire stay is considered for this measure, there are other MDS assessment types (e.g., Quarterly assessments) that feed into the calculation of this measure.
- The review of these additional assessments is called a “look-back scan.”
- This is the only QM in the SNF QRP that uses a look-back scan.

When to Submit Data

- MDS data must be submitted to QIES ASAP within 14 days after the assessment completion date documented in Z0500B (Completion date + 14 days).
- Data submission deadlines for SNF QRP occur quarterly (on the 15th of August, November, February, and May of each year).

**SNF QRP Data
Submission
Deadlines occur
quarterly.**

Where to Submit Data

- MDS records are submitted to the CMS QIES ASAP system.
- Ensure that your submissions are in the correct format, contain the correct information, and will be accepted by the QIES ASAP system.
- The *MDS 3.0 Provider User's Guide* is an important resource for providers.

How to Ensure That Data Submitted Are Accepted

- The QIES ASAP system:
 - Confirms that the submission was received.
 - Includes the name of the file you submitted.
 - Submission does not mean the data were accepted.
- The *MDS Final Validation Report* (FVR), which can be obtained from the CASPER system, will verify acceptance or rejection of MDS records.

The screenshot displays the CMS MDS 3.0 File Submission interface. At the top left is the CMS logo with the tagline 'CENTERS for MEDICARE & MEDICAID SERVICES'. To the right, the page title is 'MDS 3.0 File Submission'. A navigation bar contains links for 'File Upload', 'Submission Status', 'Help', 'Logout', and 'Welcome Page'. A 'Skip Navigation Links' link is also present. The main content area shows a confirmation message: 'Your submission has been received:' followed by a 'Print' link. Below this, the submission details are listed: 'Submission ID: 92', 'Submission Date: 10/27/2009 13:49:14', and 'File Name: MDS20101001.zip'. A paragraph of text explains that the submission file will be processed for errors within 24 hours and that a Final Validation Report (FVR) will be generated, accessible in the CASPER Reporting application. Below this text, instructions state: 'Locate the MDS file to submit by selecting the *Browse* button and choosing a file from your computer. Once you have located a file, select the *Upload* button to upload the file.' At the bottom, there is a 'File Name:' input field, a 'Browse...' button, and an 'Upload' button.

The FVR is the only way to verify that submitted files were also accepted.

Q4

Where do you submit MDS data for the SNF QRP?

- A. The Nursing Home Survey Data Center.
- B. Centers for Disease Control and Prevention.
- C. The Quality Manager at your Agency.
- D. The QIES ASAP System.

CASPER Reports

How to Access CASPER Reports

- Many valuable reports in CASPER.
 - Select the CASPER Reporting link on the CMS QIES Systems for Providers web page.

Public Reporting

Final Validation, Review and Correct, and Provider Threshold Reports

MDS Final Validation Report (FVR)

- The FVR is automatically generated by the ASAP system within 24 hours of the submission of a file and is placed in the provider's FVR folder which is named: [State Code] LTC [Facility ID] VR.
- Provides detailed information about the status of select submission files.
 - Indicates if the records submitted were accepted or rejected.
 - Details the warning and fatal errors encountered, which can include:
 - Fatal File Errors.
 - Fatal Records Errors.
 - Warnings.
- The FVR can also be user-requested.

How to Access the MDS FVR

The image displays two overlapping screenshots of the CASPER Reports web application. The top screenshot shows the main interface with a navigation menu at the top containing 'Logout', 'Folders', 'MyLibrary', 'Reports', 'Queue', 'Options', 'Maint', and 'Home'. On the left, a 'Report Categories' sidebar lists various report types, with 'MDS 3.0 NH Final Validation' highlighted in yellow. The main content area shows a folder view for 'MDS 3.0 NH Final Validation' with a sub-item 'NH Final Validation'. A blue bar at the bottom of this screenshot contains the text 'Enter Criteria (Hint: Leave...'. The bottom screenshot is a 'CASPER Reports Submit' form. It features the same navigation menu at the top. The form title is 'Report: MDS 3.0 NH Final Validation'. It includes a 'Submission ID:' text box, a 'Date Criteria:' dropdown menu, and two date input fields labeled 'from (mm/dd/yyyy):' and 'thru (mm/dd/yyyy):'. At the bottom, there are two dropdown menus for 'Template Folder:' (set to 'My Favorite Reports') and 'Template Name:' (set to 'MDS 3.0 NH Final Validation'). To the right of these are four buttons: 'Submit', 'Back', 'Save & Submit', and 'Save'.

This report may contain privacy protected data and should not be released to the public.
Any alteration to this report is strictly prohibited.

* Fictitious, sample data are depicted.

Errors and Warnings on the MDS FVR

- There are many conditions that may prevent a file or record from being successfully submitted.
- The FVR outlines errors, whether fatal or simply a warning, encountered in submitted records.
- Each error or warning is noted on the report by its identifier. Section 5 of the *MDS 3.0 Provider User's Guide* provides a list of all error/warnings and includes guidance for correcting errors if necessary:
https://qtso.cms.gov/system/files/qtso/Users_Sec5_12.pdf

All fatal errors in a file or record MUST be corrected and the file or record resubmitted.

Fatal File Errors

- Fatal File Errors: The submission file structure is checked against MDS data submission specifications; if the file does not meet requirements, it is rejected.
 - Examples of Fatal File Errors include:
 - File is not a zip file.
 - File cannot be read.
- **Files that are rejected must be corrected and resubmitted.**

Fatal Records Errors (cont.)

- Each MDS record within the file is checked for fatal record errors.
- Fatal record errors include, but are not limited to, the two following types:
 - Out-of-range responses.
 - For example, the valid responses for an item are 1, 2, and 3, but the value submitted was 6.
 - Inconsistent relationships between items.
 - For example, an inconsistent date pattern, such as the Resident's Birth Date (Item A0900) being later than the Admission Date (Item A0200), or not following a skip pattern correctly.

Fatal Records Errors (cont. 1)

- Records with fatal errors are rejected by the QIES ASAP system, and the record is not accepted.
- Rejected records are not saved in the QIES national repository.
- **Fatal records errors must be corrected and resubmitted** to ensure that data are accepted.

Nonfatal Errors or Warnings

- Late submission of MDS records will result in a nonfatal (warning) error.
- Records containing only warnings, or nonfatal errors, are accepted by the QIES ASAP system.
- Any combination of fatal errors and nonfatal errors will be rejected and must be corrected.

Warning messages should be reviewed to see whether the information needs to be corrected and resubmitted.

Example: Error/Warning

-1002	Fatal	Invalid Zip File: Zip file contained no files.	<p>Potential Causes:</p> <ul style="list-style-type: none"> • The submitted .zip file is not compressed. • The submitted file is a .zipx file. • The submitted file contains no .xml files. • The submitted file is empty. • The submitted file is encrypted. <p>Tips: Contact your software vendor for technical assistance. Refer your vendor to the MDS 3.0 Data Specifications for details of file submission requirements The submitted file must be a properly formatted .zip file. No other compression format, such as .zipx, is valid. The .zip file should not contain subfolders. The name of each XML file included in the .zip file must not exceed 200 characters, including the extension. The name of an XML file must not include special characters.</p> <p>Action: Recreate and/or rename the .zip file and resubmit.</p>

Based upon the MDS 3.0 Data Submission Specifications in effect for this record, this item is required. • The length of the value submitted for this item exceeds the maximum length allowed. <p>Action: Make appropriate corrections to the record and resubmit. Refer to the data specifications in effect for this record to identify the acceptable values for this item.</p>

Review and Correct Report

- User-requested, on-demand report.
 - SNF Review and Correct reports are available in CASPER.
- Confidential to providers.
- Provides quarterly and cumulative performance rates for assessment-based publicly reported QM data at both the resident and facility levels.
 - Providers are able to request by individual QM.
 - Resident-level data are available as a comma-separated values (or CSV) flat file.
- Displays four most recent quarters.
 - Rolling quarters: once a new quarter is added, the oldest quarter is dropped.

Review and Correct Report (cont.)

- Ability to sort resident-level data by fields such as:
 - Resident last name.
 - Resident first name.
 - Resident status.
 - Discharge date.
 - Admission date.

Review and Correct Report (cont. 1)

- Only observed (raw) data are provided; risk-adjusted rates are not shown.
- Available for providers to run with updated data weekly (until the data correction deadline).
- When reporting quarter ends, data for that reporting quarter are available the next calendar day.
- Displays data correction deadlines and whether the data correction period is open or closed.

Due to the COVID-19 public health emergency exceptions, there will be no data available (open) to correct for Q1 2020 and Q2 2020.

SNF Provider Threshold Report (PTR)

- The SNF PTR became available in spring 2019.
- PTR:
 - User-requested, on-demand.
 - Enables users to obtain status of data submission completeness related to the compliance threshold required for the SNF QRP.
- The SNF PTR will display an asterisk (*) for future dates (monthly and quarterly) when a measure is active but data are not available yet.

CASPER Report
FY 2022 SNF QRP Provider Threshold Report

CCN: [REDACTED]
Facility Name: [REDACTED]
Facility City: [REDACTED]
State: [REDACTED]

Data Collection Start Date: 01/01/2020
Data Collection End Date: 12/31/2020

# of MDS 3.0 Assessments Submitted:	4,132
# of MDS 3.0 Assessments Submitted Complete:	2,166
% of MDS 3.0 Assessments Submitted Complete:	52%

* FY 2022 SNF QRP Annual Payment Update (APU) Determination Table is limited to the data elements used for determining SNF QRP compliance and are included in the APU submission threshold. There are additional data elements used to risk adjust the quality measures used in the SNF QRP. It should be noted that failure to submit all data elements used to calculate and risk adjust a quality measure can affect the quality measure calculations that are displayed on the Compare website.

SNF Definitions:

of MDS 3.0 Assessments Submitted: The total number of PPS 5-Day and PPS Discharge as of the date within the quarter and submitted to CMS by the data submission deadline for the Data Collection End Date identified on the report. This is the denominator. The data collection timeframes and deadlines are posted on the Skilled Nursing Facility (SNF) Quality Reporting Program Measures page. See: [www.cms.hhs.gov/Medicare > Medicare > Skilled Nursing Facility Quality Reporting Program Initiatives/Patient Assessment Instruments heading > Skilled Nursing Facility \(SNF\) Quality Reporting and Technical Information](http://www.cms.hhs.gov/Medicare%20Quality%20Reporting%20Program/Initiatives/Patient%20Assessment%20Instruments/heading/Skilled%20Nursing%20Facility%20(SNF)%20Quality%20Reporting%20and%20Technical%20Information) > select the SNF QRP Table for Reporting Assessment-Based Quality Reporting at the bottom of the page for the FY of the report.

of MDS 3.0 Assessments Submitted Complete: The number of PPS 5-Day and PPS Discharge as of the date within the quarter and submitted to CMS by the data submission deadline for the Data Collection End Date identified on the report. This is the numerator.

% of MDS 3.0 Assessments Submitted Complete: Divide the numerator (# of PPS 5-Day and PPS Discharge as of the date within the quarter and submitted to CMS by the data submission deadline for the Data Collection End Date identified on the report) by the denominator (# of PPS 5-Day and PPS Discharge as of the date within the quarter and submitted to CMS by the data submission deadline for the Data Collection End Date identified on the report) and calculate the SNF's percent of complete assessments. SNFs with a percentage under 80% are not compliant with the SNF QRP.

This report may contain privacy protected data and should not be released.
Any alteration to this report is strictly prohibited.

¹ Fictitious, sample data are depicted.

SNF QRP Reports Training

- To learn more about these and other SNF QRP Reports, refer to the YouTube video entitled *Skilled Nursing Facility Quality Reporting Program Reports* from the August 2019 SNF QRP training.

<https://www.youtube.com/watch?v=3c8FkNFTSng>

Q₅

Which report provides detailed information about the status of select submission files?

- A. MDS Final Validation Report.
- B. MDS Error Summary by Provider Report.
- C. Review and Correct Report.
- D. Provider Threshold Report.

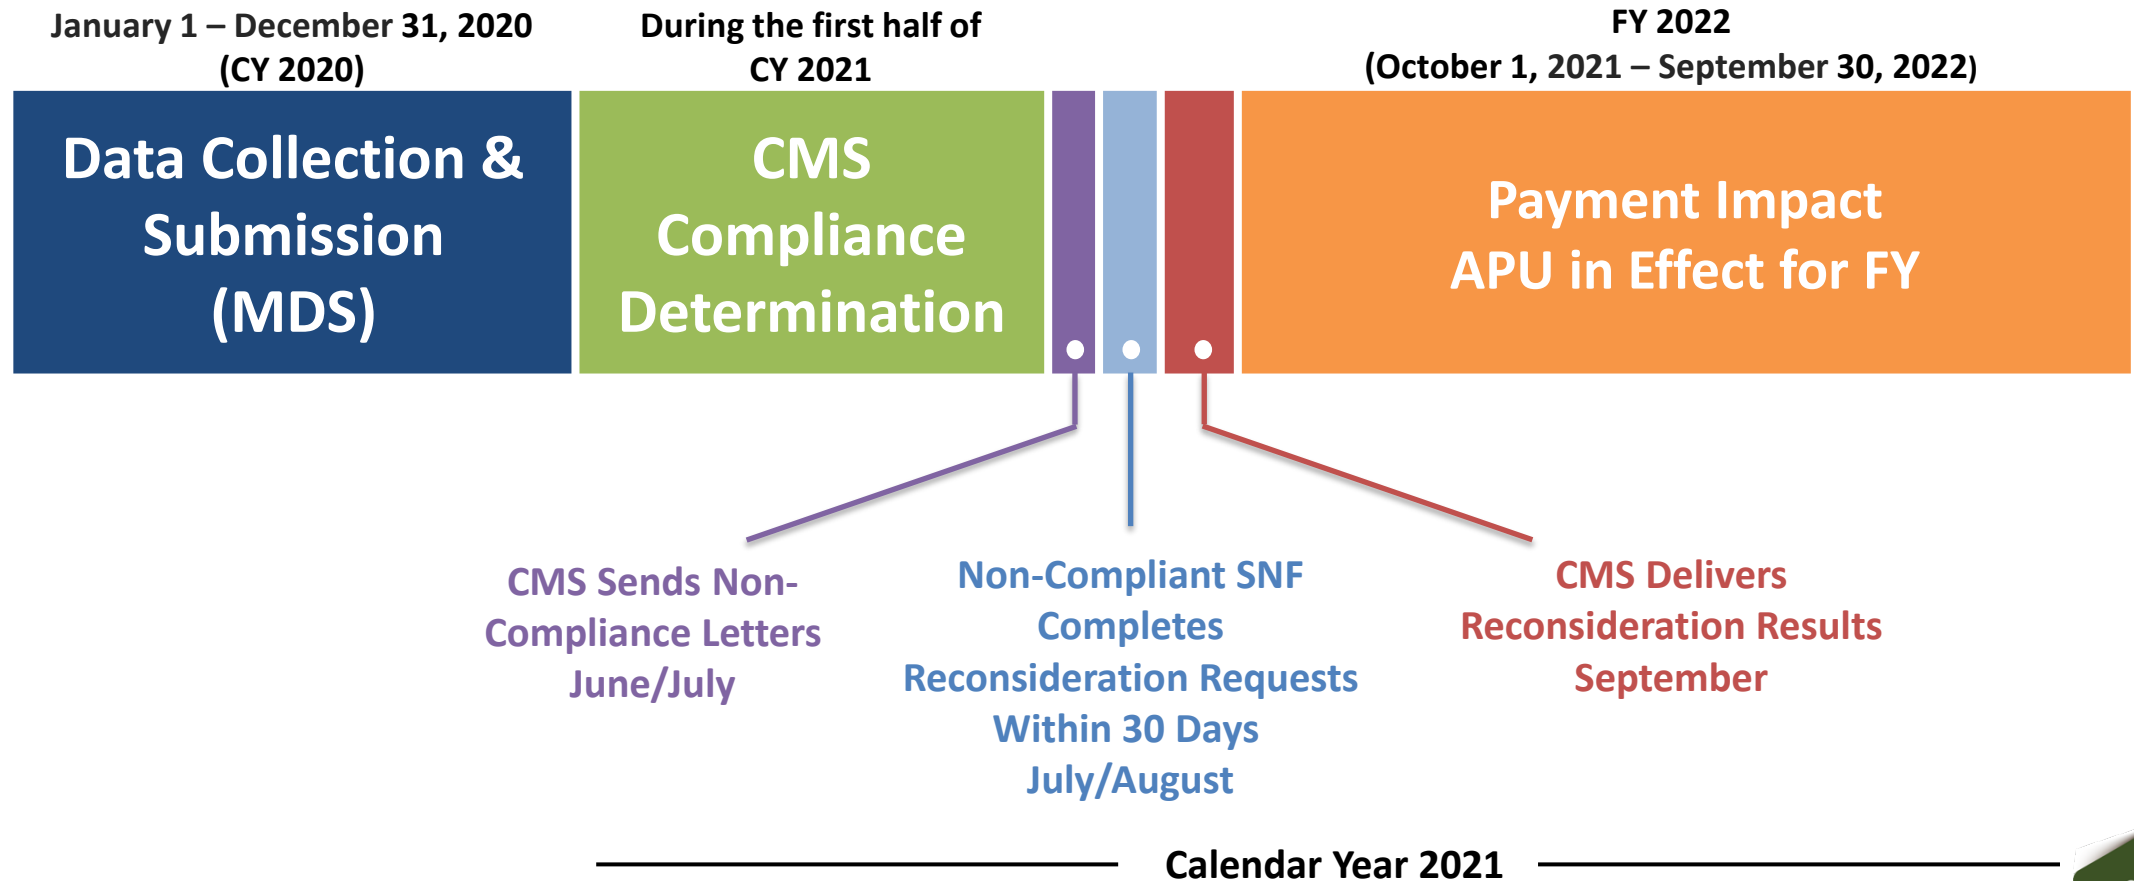

Which of the following statements regarding the Review and Correct Report is **false**?

- A. Can be requested on-demand.
- B. Is confidential to providers.
- C. Provides only facility-level QM data.
- D. Displays four most recent quarters of data.

Determining Compliance With the SNF QRP

Relationship Between Quality Reporting and APU: SNF QRP Life Cycle

SNF QRP Compliance

- For purposes of calculating compliance with the SNF QRP, MDS data submissions for the calendar year are reviewed against the requirements of the SNF QRP.
- SNF QRP requirements include:
 - Submission **and** acceptance of matching MDS assessments to construct a Medicare Part A SNF stay (Admission and Discharge, or Admission and Death in Facility Tracking).
 - MDS data are required to be submitted by established quarterly deadlines.
 - 80% of the assessments received must contain 100% of the data required to calculate the SNF QRP QMs.

SNF QRP Non-Compliance

- Any SNF that does not meet the requirements of the SNF QRP will be considered non-compliant and subject to a 2-percentage point reduction in their APU for the applicable FY.
- CMS will notify SNFs of non-compliance in at least one of three ways:
 - Letter sent via the U.S. Postal Service.
 - Email sent from the Medicare Administrative Contractor (MAC).
 - QIES ASAP System in CASPER.
- This notice will include the reason(s) for failing compliance and instructions for requesting reconsideration of CMS' decision.

What is Reconsideration?

- Reconsideration is a request for review of the initial CMS compliance determination for a given SNF for a given FY.
- If a SNF has been identified for the 2-percentage point payment reduction in APU, they have the right to request a reconsideration of the non-compliant decision.

Why Would a SNF Submit a Reconsideration Request?

- SNFs may file for reconsideration if:
 - They believe the CMS finding of non-compliance is in error.
 - They have evidence of the impact of extraordinary circumstances which prevented timely submission of data.
- Requests must be submitted within 30 days after the date documented on the non-compliance notification letter.
- No requests will be accepted after the 30-day deadline.

Creating a Reconsideration Request

- The only method for submitting a reconsideration request is via email to CMS.
- The subject line of the email should include “SNF QRP Reconsideration Request” and the SNF's CMS Certification Number (CCN).
- The Reconsideration Request must be sent to the following email address:
 - SNFQRPreconsiderations@cms.hhs.gov

SNF QRP Reconsideration Request CCN

Creating a Reconsideration Request (cont.)

- The following must be included in the request:
 - The CCN, business name, and address.
 - The CEO or designated contact information.
 - The CMS-identified reasons(s) for non-compliance (from the notification letter).
 - The reason(s) for requesting reconsideration.
 - Information supporting the SNF's belief that either the finding of non-compliance is in error, or they have evidence of the impact of extraordinary circumstances which prevented timely submission of data.

Creating a Reconsideration Request (cont. 1)

- Include supporting documentation demonstrating compliance, such as:
 - Proof of submission.
 - Email communications.
 - Data submission reports from the QIES.
 - Proof of previous waiver approvals for exception or extension for the reporting timeframe.
 - Copy of the CCN activation letter.
 - Other documentation supporting the rationale for seeking reconsideration.

Creating a Reconsideration Request (cont. 2)

- Determination will be made based solely on the documentation provided.
- CMS **will not** contact the SNF to request additional information or to clarify incomplete or inconclusive information.
- Reconsideration requests that contain protected health information (PHI) will **not** be processed.

IMPORTANT NOTICE

Do not submit
protected PHI to
CMS for review.

Reconsideration Response

- CMS should acknowledge receipt of the reconsideration request within 5 business days through an email.
- Following its review of the request and supporting documentation, CMS will issue its decision by regular mail through the MAC and an electronic letter through the CASPER system.
- If the decision upholds the finding of non-compliance, a provider may file an appeal with the Provider Reimbursement Review Board.

Reconsideration Process: Do's and Don'ts

- Do:
 - Send reports demonstrating compliance with all PHI redacted.
 - Submit your reconsideration request prior to the deadline.
 - Ensure that you receive an email confirmation of receipt in addition to the automated response from the mailbox.
- Don't:
 - **SUBMIT PHI.**
 - Submit an email that is larger than 20 MB.
 - Submit FVRs or reports from third-party vendors.

Reconsideration Process: Estimated Timeline

- June – July: Non-compliant SNFs that failed to meet QRP requirements are notified.
- July – August: Reconsideration requests are due to CMS no later than 30 days from the date on the notification of non-compliance.
 - CMS provides an email acknowledgement within 5 business days upon receipt of reconsideration request.
- September: CMS notifies SNFs of the decision on reconsideration requests.
- October: APU penalty imposed on SNFs found to be non-compliant with QRP requirements.

Estimated Timelines

Annual Payment Update (APU)

- CMS annually updates the Medicare fee-for-service prospective payment rates provided to SNFs who are billing MACs for services provided to Medicare beneficiaries. This is called the SNF market basket increase or APU.
- This APU occurs on a FY basis every October 1st.
- SNFs that do not meet the reporting requirements of the SNF QRP are subject to a 2-percentage point reduction in their APU.

Which of the following statements regarding the reconsideration process is **false**?

- A. SNFs have 30 days to submit a reconsideration request.
- B. CMS contacts the SNF if it has further questions.
- C. Requests can only be sent by email.
- D. CMS issues a decision by regular mail and via the CASPER system.

Skilled Nursing Facility (SNF) Quality Reporting Program (QRP) Training

The purpose of this page is to provide information about SNF QRP trainings including provider training materials and other resources. Training announcements, reminders, and other updates are organized by date and added to this web page as new materials become available.

Updates

October 28, 2020

NEW TRAINING EVENT – Brief Interview for Mental Status (BIMS) Video Tutorial

The Centers for Medicare & Medicaid Services (CMS) is releasing a video tutorial to assist providers in Skilled Nursing Facilities with standardized data assessment guidance and assessment strategies for the cognitive assessment known as the Brief Interview for Mental Status (BIMS). This video tutorial is approximately 22 minutes in length and is designed to provide targeted guidance for accurate coding using live-action patient/resident scenarios.

Please [CLICK HERE](#) to access the video tutorial.

If you have technical questions or feedback regarding the training, please email the [PAC Training mailbox](#). Content-related questions should be submitted to the [SNF Quality Reporting Program Help Desk](#).

October 28, 2020

NEW TRAINING EVENT – Confusion Assessment Method (CAM®) Video Tutorial

The Centers for Medicare & Medicaid Services (CMS) is releasing a video tutorial to assist providers in Skilled Nursing Facilities with standardized data assessment guidance and assessment strategies for the cognitive assessment known as the Confusion Assessment Method (CAM®). This video tutorial is approximately 25 minutes in length and is designed to provide targeted guidance for accurate coding using live-action resident scenarios.

Thank You.

The webinar has now concluded.
