

Finding Labs for Tests that Require Blood Draws

Below we have compiled a list of some resources you can try in order to get your blood work done. The prices listed here are to the best of our current knowledge, but you should contact each lab directly to confirm pricing, as it is subject to change at any time. If you encounter any other labs or phlebotomists in your area that you used, please send us a Secure Message so we can share their information! **Please note all information listed below is subject to change.**

General Suggestions

- Check with local labs (including LabCorp and Quest) to see if they will draw blood for an outside kit.
- Check with your primary care doctor's office to see if there is a phlebotomist on staff.
- Call local hospitals or urgent care centers to see if they will draw blood for an outside kit.

- Do a Google search on "at home blood draw + [your city]," "mobile phlebotomy + [your city]," or "mobile blood draw + [your city]."
