## Global Partner Program

AI leader Brainspace unveils new Global Partner Program to expand use cases, kick-start new worldwide partnerships and enhance benefits to existing partners

[Brainspace](#), the world's leading analytics platform for investigations, eDiscovery, compliance, and alternative data, has launched a new Global Partner Program to align with the company's increasingly international customer base.

The AI platform leader is enhancing its partner ecosystem and channel programs by providing exclusive training, marketing, and sales enablement that expand partner sales opportunities. Partners can now integrate Brainspace software into their own service offerings including managed services with exclusive options to either refer or resell Brainspace to corporations, law firms, public sector, and government agencies.

### PARTNER BENEFITS

- Exclusive market offering that locks out the competition
- Comprehensive marketing support including the latest promotional assets
- Cobranded webinars and joint social media campaigns
- Repeatable sales model designed specifically for the enterprise market
- Long term revenue growth opportunities by managing customer decision IP via Brainspace's Portable Learning
- 25-50% discount on Brainspace training depending upon partner level
