

## Enable insightful decision making and reduce complexity with visualizations of your enterprise data

CloudExtend Analytics brings NetSuite to your spreadsheet, enabling you to make the right business decision at the right time. Combine one or more saved searches and create multiple joins to visualize your NetSuite data as you've never seen it before. Run multiple searches on-demand or put them on a schedule to run in the background for near real-time visibility into your business metrics. Build executive dashboards in Excel or link to powerful BI tools such as PowerBI. Try CloudExtend today.

# What CloudExtend Analytics for NetSuite Does for You

## Boost Productivity

Run one or more saved searches with a single click.

## Leverage Excel's Power

Visualize your data using the powerful tools built into Excel.
