

RISE with SAP

RISE with SAP offers a holistic transformation with a simplified engagement model so you can turn your business into an intelligent enterprise.

What is Rise with SAP?

SAP RISE is one offer and one contract. According to SAP, it has an unmatched total cost of ownership (TCO). You get bundled SAP products for a single price and the ability to manage service level agreements (SLAs), operations, and issue management under a single contract. SAP launched RISE with SAP to provide companies with flexibility, without a high up-front investment. It is not a new SAP product but has new functionalities.

What's Included with RISE with SAP?

RISE with SAP helps companies get started with the cloud. It takes away the guesswork and patchwork of license purchases. It provides companies with a comprehensive, intelligent, and customer-specific offering. RISE with SAP includes five core elements.

- 1. SAP S/4HANA Cloud.** A modular cloud ERP solution that can help you transform and innovate through new industry business models and best practices. Establish process excellence with built-in artificial intelligence (AI) and elevate sustainability standards.
- 2. Business Process Intelligence (BPI).** This can help your organization continuously understand, innovate, and transform businesses processes. You'll gain a clear picture of how processes work end-to-end. Access the SAP Process Discovery tool within BPI to transform your operations and gain insights into your end-to-end performance with process analytics.
- 3. Technology Cloud Credits.** Complement, extend, and integrate with any other solution (SAP, partner, or third party). Use the data model and business services on SAP Business Technology Platform (SAP BTP) to connect it all. Drive your innovation faster with SAP BTP consumption credits to fast-track your move to SAP S/4HANA Cloud.
- 4. SAP Business Network Starter Pack.** Move quickly by creating dynamic, digital connections with your trading partners and assets. Apply network-wide intelligence to guide real-time data and visibility decisions.
- 5. Embedded Tools and Services.** Embedded services and tools are included. Gain access to products and services for lifecycle management, analytics, support, and more to migrate to SAP S/4HANA.

How Syntax Complements RISE with SAP

A RISE with SAP subscription provides access to a comprehensive bundle of software, tools, and services. Syntax has a wealth of SAP experience, solutions, and services that augment RISE with SAP.

Cloud Advisory Services

Syntax complements the RISE with SAP offering with advisory services. We can assess your business, your existing SAP environment, and look for opportunities to improve business processes. Maximize your SAP investment and unlock new business value. Understand what it will take to move your SAP applications to the cloud and gain the efficiencies that the cloud provides.

Continuous Improvement Program

Our Continuous Improvement Program is a client-centric mindfulness approach to improve processes and technological engagement to maximize the return on your SAP investment. It's also about moving you to achieve best practices and performance goals with tools like the Client Health Check.

SAP Upgrades and Implementation Services

Syntax can provide you with a wide range of SAP implementation services to help your organization move to S/4HANA. We can create a tailored implementation strategy that enables you to achieve your business objectives quickly and efficiently. We use SAP best practices to ensure your project is on time and on budget.

SAP Managed Services and Application Management Services (AMS)

With Syntax SAP Managed Services, your IT can be a powerful tool to gain a competitive advantage. Our highly trained and skilled SAP Managed Services team will help free up your IT department, allowing you to refocus resources on more critical business initiatives. Syntax provides Application Management Services (AMS) for SAP applications in Digital, Core ERP, Analytics, and Tools/Services. We are the first global provider to hold the AMS certification for SAP S/4HANA.

SYNTAX

Syntax provides comprehensive technology solutions to businesses of all sizes with over 800 customers trusting Syntax with their IT services and ERP needs. Today, Syntax is a leading Managed Cloud Provider for Mission Critical Enterprise Applications. Syntax has undisputed strength to implement and manage ERP deployments (Oracle, SAP) in a secure, resilient, private, public or hybrid cloud. With strong technical and functional consulting services, and world class monitoring and automation, Syntax serves corporations across a diverse range of industries and markets. Syntax has offices worldwide, and partners with SAP, Oracle, AWS, Microsoft, IBM, HPE, and other global technology leaders. Learn more about Syntax at www.syntax.com.
