cleaner

Floor &  
multi-surface  
cleaner

## Tools Needed

Broom &  
Dustpan

Disposable  
Gloves

Mop Bucket  
& Mop

Paper  
Towels

Toilet  
Brush

Wet Floor  
Sign

## Frequency

Daily

## Preparation

1 Close restroom to pedestrian traffic by placing the 'wet floor' sign in front of door.

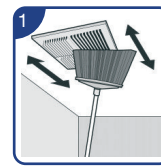

2 Put on disposable protective gloves.

3 Pick up debris off floor and empty and remove trash.

## Ceiling HVAC Air Vents

1 Clean vent covers with broom.

## Toilets & Urinals

1 Flush toilets and urinals.

2 Force water through trap with toilet swab or brush to remove water from bowl or urinal.

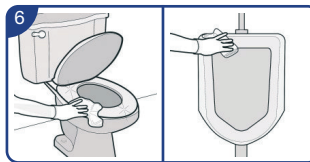

3 Squirt Heavy duty cleaner for toilet bowls into and around bowl of toilet or urinal.

4 Spray Sanitary multi-purpose cleaner onto tiles around urinals to remove odors.

5 Scrub exterior and interior of toilets and urinals.

6 Wipe the exterior of toilets and urinals with paper towel(s) to remove cleaning and soil residues.

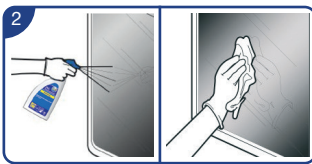

7 Wipe toilet and urinal exterior with a damp clean towel and water to remove any cleaner residue. Wipe dry if needed.

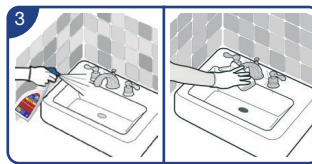

## Sink Area & Walls

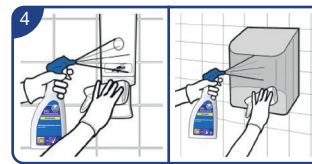

1 Check and if needed, refill hand soap dispenser with hand soap.

2 Spray the mirror with Disinfecting multi-surface cleaner and wipe off with paper towel(s).

3 Spray the sink with Sanitary multi-purpose cleaner and wipe off with paper towel(s).

4 Spray the hand soap and towel dispensers with Disinfecting multi-surface cleaner and wipe off with paper towel(s).

5 Spray walls with Sanitary multi-purpose cleaner and wipe off with paper towel(s).

## Stall Walls

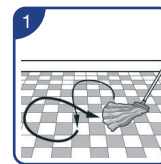

1 Spray Disinfecting multi-surface cleaner onto cubicle walls.

2 Wipe off cleaner with paper towel.

## Mop

1 Clean floor following Damp Mop procedures.
