

# MANAGE ALL OF YOUR ORGANISATION'S DATA PROCESSING ACTIVITIES IN ONE PLACE

Keeping comprehensive Records of Processing Activity (RoPA) is one of the tedious, but essential things you need to do for General Data Protection Regulation (GDPR) compliance. Authorities have already levied millions of euros in fines for “Insufficient fulfilment of information obligations.” The PrivacyEngine Record of Processing Activity (RopA) Log records all the ways in which you use personal data, giving you peace of mind when it comes to GDPR compliance, with the added-value of identifying associated data protection risks.

## Features:

- Mandatory Records of Processing Activity (RoPA) logs required under Article 30 of the GDPR.
- Additional logs and records include:
  - Data Breach and Incident Management records.
  - IT Systems Log
  - Third Party Log.
  - Data subject rights Logs, including;
    - Subject Access Request Management,
    - Right to Rectification,
    - Right to be Forgotten,
    - Right to Restriction of Processing,
    - Right to Portability of Data,
    - Right to Objection to Processing,
    - Right in relation to Profiling and Automated
    - Decision Making.

## Benefits:

- Capture a complete audit trail of all activities and changes in data storage and processing to fulfil GDPR legal requirements for maintaining records.
- Save time and effort complying with other aspects of the Data Protection regulations, including drafting privacy notices, responding to data access requests, and ensure the personal data you hold is relevant, up to date and secure.
- Enable faster response to security issues and improve defence against cybersecurity threats.
- Increase business efficiency – knowing what personal data you hold, why you hold it and for how long, will help you to develop more effective and streamlined business processes.

The GDPR requires organizations to keep detailed records of how they process personal data. PrivacyEngine enables you to record your organization’s processing activities collaboratively, engaging all data champions and stakeholders to ensure you miss nothing. As your organization’s processing activities are recorded, the platform identifies potential risks based on the information provided to help you ensure data processing meets the requirements of the GDPR Regulations.
