

# ON - DEMAND TRAINING FOR EMPLOYEES & DATA PRIVACY LEADERSHIP

Beyond basic compliance, training and awareness are the keys to avoiding costly data protection problems – and it's not just an issue for employees, 52% of business leaders don't know what to do in the event of a cyber-security attack, according to one recent study. The PrivacyEngine Learning Management System covers all your data privacy training needs, and tracks progress to elevate data privacy awareness and engagement across your entire organisation.

## Features:

- Integrated Learning Management System to support, manage and track ongoing data protection training.
- 100s of hours of engaging content for employee awareness training.
- Internationally recognized training & certification for data protection professionals.
- Select from a library of PrivacyEngine and third-party content, including:
  - GDPR Primer for Data Protection Officers:
  - GDPR Staff Awareness
  - California Consumer Privacy Act
  - Cybersecurity Awareness
  - 12 Steps to GDPR Compliance
  - Phishing Interactive Quiz
  - Cyber-security awareness at home
  - Cybersecurity awareness training with NINJIO
  - IAPP Training & Certification
- Upload and distribute your own training content.

## Benefits:

- Provide your employees with the knowledge needed to protect data privacy and meet regulatory requirements.
- Save time and money by reducing the chance of human error leading to a data breach or regulatory failure.
- Monitor training progress & completion to meet requirements of the General Data Protection Regulation (GDPR) and California Consumer Privacy Act (CCPA).
- Build a data protection-awareness culture across your organisation for ongoing compliance.
- Reduce your risk of fines and bad publicity - If your staff are trained, mistakes are less likely to happen.

Staff and stakeholder awareness training should be seen as more than simply a tick the box exercise. For organisations to embed a culture of data privacy compliance, the right training processes need to be put in place. Up to 80% of data breaches and data privacy violations result from lack of awareness or inadequate training. PrivacyEngine includes a Learning Management System and 100s of hours of engaging data-protection training for employee awareness, as well as professional training and certification for data privacy leadership.
