Provider Network

As a participating provider of the **Newton-Wellesley Hospital Community Plus** network, you are in-network for Allies members.

Check the AllWays Health Partners provider directory for the latest network listing.

Authorization & Referral

Services within the Newton-Wellesley Hospital Community Plus network:

Referrals are not required to see providers within the Allies network. In-network providers should follow standard authorization requirements per your practice's contractual agreement with AllWays Health Partners.

Services outside the Newton-Wellesley Hospital Community Plus network:

Prior authorization is required for all services received outside the network except for emergency care. This includes providers who are in AllWays Health Partners' standard HMO network, but not in the Newton-Wellesley Hospital Community Plus network.

What makes Allies unique?

▶ Allies Health Navigator

Allies members have access to a health navigator who may contact your practice to schedule appointments. The dedicated health navigators help members get set up with their plan, select a Newton-Wellesley Hospital PCP, schedule appointments, support members when discharged, get answers to questions related to benefits/claims/billing.

Reach by telephone at: **1-855-833-2496**

▶ Enhanced Virtual Care

Members have \$0 cost sharing for all virtual health visits. For primary care, a new virtual first primary care group is available to Allies members. Virtual primary care appointments are guaranteed within 1 business day with this practice.

▶ Quicker Appointment Times

Allies members are guaranteed quicker and easier access within 3 business days with select Newton-Wellesley Hospital specialists including orthopedics, cardiology, dermatology and gastroenterology.
