

Managed Azure Cloud

Public Cloud Management

Hand off the administration of Microsoft Azure cloud resources to our expert team to gain the scalability and flexibility of public cloud without the hassle of ongoing cloud management and integration.

Moving to a cloud-first strategy? Not sure about the best way to migrate to hyperscale cloud? Lunavi is here to help.

We know the cloud and we know Microsoft. You have business goals to achieve. Free up your IT staff from wrangling infrastructure with a fully managed cloud.

We help you decide which workloads are placed in Azure, which might be a better fit elsewhere, while keeping it all up-to-date and performing at a high level.

Lunavi cloud service staff are **Azure certified** in addition to holding MCSE and other Microsoft credentials. By choosing Lunavi to manage your Azure resources, you get **guaranteed 100% availability, up-to-date systems, and compatibility and interoperability.**

Managed Azure cloud hosting from Lunavi includes:

- In-depth cloud assessment, proof of concept, testing, migration, and deployment
- 24/7/365 Hear from a Human Support
- Flexible, scalable infrastructure so you only pay for what you need
- Optimized cloud environments to maximize your investment
- Rapid patching and protection from the latest vulnerabilities
- The right combination of storage platforms, automation, and PaaS for your use case
- Fully integrated backup and disaster recovery options
- Cloud availability zones across the globe
- Security monitoring and anti-virus/anti-malware tools

How to get started

Lunavi's sales and engineering teams are ready to help you assess your current landscape and map out your journey. To get started, contact your Lunavi representative or email us at sales@lunavi.com
