Prioritized Recommendations

Detailed reports with recommendations, including prioritized actions, next steps, and key considerations.

Intelligence Domains

Cyber Threat Intelligence

Identify digital threats outside your network, unmask insiders, and threat hunt on the dark web.

The following are assessed under Cyber Threat Intelligence:

- Threats and risks to the confidentiality, integrity, and availability of sensitive or protected data and computer networks
- Network attack surface and potential vulnerabilities or similar exposure outside of your network perimeter
- Insider threat behavior, including data leakage and illegal motivation

Fraud Intelligence

Stop fraudulent threat actors leveraging corporate environments, services, and systems for monetary gain.

The following are revealed through Fraud Intelligence:

- Online threat actor activity related to fraudulent activity, including trafficking in stolen, counterfeit, or illegal goods
- Illicit purchasing of goods or monetary instruments
- Use of stolen credentials, accounts, or payment methods

Platform Intelligence

Stop platform abuse that diminishes customer experience and trust in your brand.

The following are addressed through Platform Intelligence:

- Threats and risks to the trust and safety of an online platform
- Misuse or abuse of credentials and/or accounts
- Manipulation via malicious or misrepresented content syndication
- Platform abuse, including the creation of counterfeit apps, API manipulation via scripts and bots, and ratings and ranking system abuse
- Terms of service violations

Intelligence Domains

Reputation Intelligence

Defend your brand and reputation from external threats and disinformation.

The following are tracked through Reputation Intelligence:

- Threats and risks to a client's brand and reputation
- Abuse of a client brand and negative impact(s) on reputation
- Point-in-time sentiment collection, related to an event, location, or activity
- Campaigns of intentional slander, disinformation, or misinformation

Protective Intelligence

Identify, assess, and mitigate threats to your company's people, property, and assets.

The following are mitigated through Protective Intelligence:

- Threats and risks to executives or key personnel
- Threats and risks to employees and physical properties
- Threats and risks to corporate assets

Adversary Insights Subscription Packaging

Nisos provides a highly flexible approach to consuming our intelligence offerings. Clients can request investigations based on the depth of analysis they require, the variety of intelligence domains they wish to cover, and the concurrent number of requests needed.

Adversary Insights Subscription Packaging

The Adversary Insights Subscription packaging satisfies intelligence teams' consistent and ongoing requests for information on potential and identified threats and problems. Subscriptions support unlimited sequential Requests For Information (RFIs). If additional, more in-depth requirements and analysis are needed, clients can include credits for extended intelligence reports or custom research and analysis.

Intelligence Spotlight Subscription

Spotlight Requests

Requests with a focus on indicator research and collection with rapid analysis to confirm threats.

Targeted Intelligence Subscription

Spotlight Requests, plus:

Targeted Intelligence Requests

A report providing focused analysis on a more complex problem leveraging broader datasets and analysis. Targeted Intelligence requests support additional analysis requirements based on findings of initial Intelligence Spotlight requests.

Additional Reports for Complex RFIs

Targeted Intelligence Report

Available for additional credits with Intelligence Spotlight Tier.

Extended Intelligence Report

Intelligence requests that require investigation, correlation, and analysis across platforms and personas.

Deep Intelligence Report

Reporting that provides deeper investigation, correlation, and analysis supported by custom technology deployment and/or bespoke data collection.

This report is best for when security organizations want customized Intelligence collection, research, and analysis to address scaled threats at massive volume.

Please refer to the Nisos Adversary Insights Subscription RFI Examples Brief for additional detail and examples of RFIs in each category.

Deliverables

Nisos provides subscriptions that enable you to take action and protect your people, your business, your customers, and your assets with rapid and curated responses to intelligence questions and concerns.
