OUR COMPANY

WESTERN STATES METAL ROOFING

Do you have a roof or wall that's the focal point of your building? Maybe, you want something that's unique and different than everyone else? If so, we have stunning colors that actually look like a real patina'd metal. You get the beauty of an antique and aged metal without any of the problems.

Western States Metal Roofing is the leader in painted metal roofing products that look old and weathered. There is no other company in the industry that has an equal color selection or authenticity of paint prints.

Roof: Vintage® - Western-Lock® Standing Seam
Siding: A606-4 (aka Corten®) - Western Rib® (7.2 Panel)

ARE YOU TIRED OF THE SAME TEN ROOFING COLORS?

This catalog will have beautiful and unique **COLORS AND FINISHES YOU'VE NEVER SEEN BEFORE**

We offer seven distinct series of pre-painted metals that resemble various stages and types of rusted roofing/patina'd metals. They are:

- **Orange/Brown Rusted**
- **Patina'd Copper**
- **Aged Zinc/Weathered Gray**
- **Dark Matte Finishes**
- **Blackened Steel**
- **Old Galvanized with Orange Rust Streaks or White Rust Spots**
- **Streaked Series®**

Available in:

- Metal Roofing/Siding/Wall Panels
- Coil
- Flat Sheets

If your project requires a different look other than a standard painted or Galvalume® roof, we are the right company for you. If you can visualize it, we can likely find a way to manufacture it. Simply call or email us with your idea. Call us toll free at 855-426-7836 or email us at sales@paintedrustedroofing.com to request free color chips or pricing. For a complete list of available colors, please visit our website at www.paintedrustedroofing.com.

WHY YOU SHOULD BUY FROM US:

FREE METAL COLOR CHIPS

EXCELLENT PRICING

We buy steel in large quantities which lead to bigger discounts. We pass those cost savings to our customers - making our products cost effective.

AFFORDABLE SHIPPING

Our company has manufacturing facilities located in Phoenix, Arizona and distribution points set up throughout the country. By doing so, it enables us to ship our products inexpensively throughout the United States, Canada and Mexico.

KNOWLEDGEABLE & COURTEOUS SALES ASSOCIATES

Our team is comprised of employees familiar with this type of metal roofing and can help you choose the material that is best for the project.

FAST TURNAROUND

Because we manufacture and inventory our own products in our own facilities, we can get them produced and shipped faster to you. Additionally, we have route trucks that service the entire United States, Canada and Mexico.

MADE TO ORDER PANELS

We cut your metal roofing and siding to the exact lengths needed.

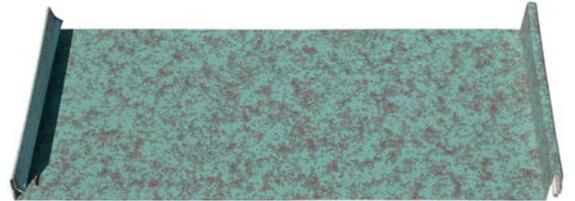

METAL ROOFING, METAL SIDING, METAL WALL PANELS, COIL AND FLAT SHEETS

MATTE FINISHES THAT LOOK LIKE A DARK AGED METAL

ROOFING PANELS • WALL PANELS • FLAT SHEETS • COIL • TRIM

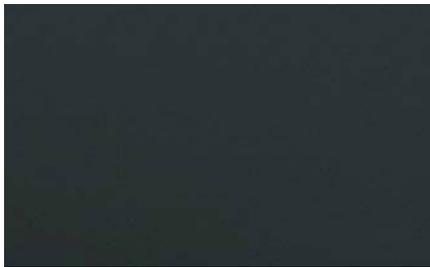

Matte finishes are flat colors that have less of a glare than your standard metal roofing colors. A matte finish can be useful when working with black because it can soften the sometimes harsh appearance that black or other dark colors might give off.

AVAILABLE COLORS IN THIS SERIES:

These color samples are as close as possible to actual colors offered within the limits of color reproduction. Substrate subject to change.

SIDE BY SIDE COMPARISON:

Streaked Rust®

Pre-Rusted Corten®/A606-4

STREAKED SERIES®

AVAILABLE IN 7/8" CORRUGATED ONLY

There are no other paint prints that even come close to the authenticity of the Streaked Series®.

- Designed specifically for 7/8" Corrugated.
- Different colors in the highs and lows of the panels.
- The panels look like a real patina'd metal.
- Kynar®/PVDF paint warranty.

Some of the benefits include:

- Panels in the Streaked Series® arrive looking weathered. You do NOT have to wait for it to weather like real Corten or real Copper.
- Real Corten & Copper will have rust run off and rust stains. Streaked Series® panels are a painted product so you will NOT have these problems.
- Standard paint warranty. Real rusted steel in Corten, Bare Cold Rolled and Copper do NOT have a warranty.

Performance Qualities

Substrate: Galvalume® AZ50 Minimum or Galvanized G-90

Thickness: 24 Gauge

Finish: Cool-Tech® 500-WT (PVDF/Kynar 500®/Hylar 5000®)

Warranty: 25-40 Year Limited Paint Warranty

Sample warranty available upon request.

Distressed Wood®

T-8 PLANKWALL®

WOOD METAL SERIES

- Metal wall and soffit panels designed to mimic distressed or walnut wood.
- Proprietary wood grain paint finish.
- Save up to 75% in material cost when compared to real reclaimed lumber.
- Easy to install with concealed fasteners - vertical or horizontal installation.
- No maintenance - no need to stain, paint, or seal.
- Kynar®/PVDF paint warranty.

Specifications

Material Type: T-8 PlankWall® Metal Soffit and Flush Wall Panel
Panel Height: 1"
Overall Width: 8" Standard
Available Gauges: 24
Substrate: AZ50 Minimum (aka Galvalume®/Zincalume®)
Finishes: Cool-Tech® 500 PVDF (aka Kynar 500®/Htlar 5000®)
Fasteners: Concealed fastener system for wall, soffit, and fascia
Panel Length: 1' to 45'
Installation: Over a solid substrate.

SOLAR REFLECTIVITY INDEX

Specialty Paint Prints	Cool Ratings		
	Reflect	Emiss	SRI
Distressed Wood®	25.0%	0.89	25
Walnut Wood	17.0%	0.90	15

All information stated in the color chart is correct at time of printing and subject to change without notice. Check our website for latest version. 01/2020.

FEATURES & BENEFITS

- **Authentic Wood Grain Patterns** - Designed to mimic the look of real distressed wood or dark walnut wood, our T-8 PlankWall® panels are available in four different types of wood grain patterns. When used in conjunction with each other in our four part wall and soffit system, these distinct patterns will give your project a unique distressed or dark walnut wood look. Each grain pattern replicates wood lines from different wood types and offers an attractive wood look for lasting curb appeal and eliminates repetitive patterns.
- **Product Applications** - Wall panels, soffits, or fascia.
- **Easy Installation** - Tongue-and-groove engagement and concealed fasteners improve appearance and strength while also making it easier to install over any solid substrate. Vertical or horizontal installation.
- **No Maintenance** - When compared to real wood, with T-8 PlankWall®, there is no need to stain, paint, or seal metal panels after installation.
- **Rot Resistant** - Real wood absorbs moisture and is vulnerable to decay causing it to rot. Painted metal panels are waterproof and do not rot.
- **Pest & Termite Resistant** - Bugs, pests, termites, and birds cannot penetrate through metal materials making a metal wall panel system your best defense against unwanted creatures.
- **Durable** - 24 Gauge metal wall substrate coated with Galvalume® and/or Zincalume® will have an exceptionally long life expectancy.
- **Sustainable** - Metal cladding is made from recycled content and is recyclable at the end of its life as a wall panel. In contrast, most shingle tear-off waste ends up as part of the building-related waste stream - up to 20 billion pounds per year.
- **Warranty** - Since each panel is made using a premium specialty Cool-Tech® 500 paint print, we offer a 40 year limited warranty for each patterned T-8 PlankWall® panel. See website for warranty details.
- **Fire Resistant** - Metal soffits and wall panels are non-combustible.
- **Lightweight** - Lightens the load in installation and reduces the load bearing weight on support walls and beams.
- **Stylish** - Mix and match panel patterns on the same wall and soffit to break up the monotony of the grain patterns and to give each wall a unique rustic look with a modern twist.

Distressed Wood®

Walnut Wood

T-8 PLANKWALL® **DISTRESSED WOOD®**

Reclaimed lumber is wood that has a past and has been used for barns or buildings. The distressed wood series is a metal soffit and wall panel that is designed to mimic an old and antique wood finish. Huge cost savings when compared to real reclaimed wood.

T-8 PLANKWALL® **WALNUT WOOD**

Painted metal soffit and wall panel that is designed to look like real dark walnut wood. Huge cost savings when compared to real walnut wood.
