

SAFER TIME & ATTENDANCE

Everyone deserves a safe space.

Eliminates 'buddy punching'

Designed and built in Australia

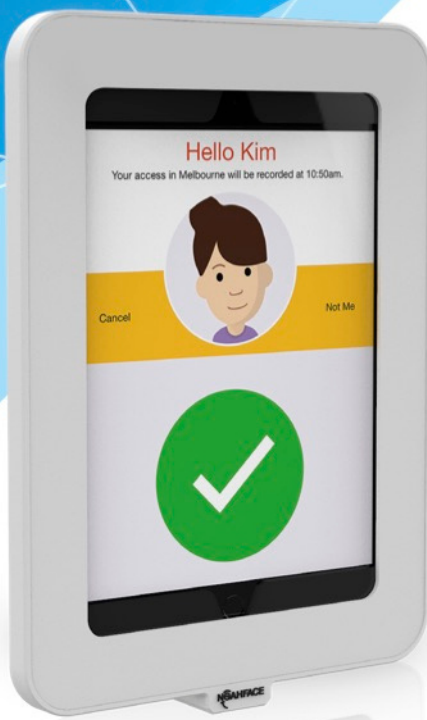

Unmanned

Touchless

Multiple integrations

Works offline

iPad based, highly secure

In 2020, organisations have an even higher legal duty-of-care with regards to Workplace Health and Safety and protecting workers from COVID-19 exposure.

At the same time, compliance, tracking and cost-effectiveness are also crucial for every enterprise – and NoahFace Time & Attendance offers all of this in a safer, completely touchless way to manage your workforce.

Through our API's we integrate seamlessly with many major payroll systems including, but not limited to – Kronos, Microkeeper, Keypay and Payroll Metrics.

As a state-of-the-art solution, NoahFace works in less than the second it takes for a user to look at the mounted iPad, which authenticates them and records a clocking event that is automatically fed up to payroll systems. Best of all, NoahFace's authentication algorithms eliminate "Buddy Punching", saving your business real money.

Easily configured T&A and compliance rules can trigger alerts – along with full event logging, so that you can better manage your workplace.

Configuration options include fully customisable compliance questions eg. COVID-related, safety confirmations or license expiries.

The NoahFace Difference

- 1 Designed and built in Australia
- 2 Touchless
- 3 iPad based, highly secure
- 4 Works offline
- 5 Full event logging
- 6 Multiple system integrations
- 7 Highly scalable and upgradable
- 8 Lightning fast
- 9 Integrated mobile app
- 10 Highly configurable

The NoahFace Time & Attendance system accurately logs and stores employee attendance times in accordance with workplace compliance requirements.

iPad is a registered trademark of Apple Corporation.

Three solutions. One lightning fast step.

Every NoahFace door improves safety and cost-effectiveness for your organisation.

For touchless and safe Access Control and Time & Attendance, NoahFace is the state-of-the-art complete solution.

NoahFace is the lowest cost Access Control credential provider, seamlessly integrated with leading payroll and Access Control systems.

Say goodbye to the management and costs of security cards and key fobs, and the risks of thumb readers, whilst enhancing security and reducing touch points.

Everyone deserves a safe space.

Designed for use in:

- Office and government
- Manufacturing
- Healthcare
- Retail
- Food facilities
- Hotels and hospitality venues
- Schools / universities
- Daycare
- Churches
- Healthcare and hospitals

NoahFace opens the door to a 3-in-1 solution for people flow.

"Our high value storeroom door gets used 60,000 times per year. With NoahFace's lightning fast solution, we save 100 staff hours per annum at that one door alone. NoahFace has transformed our efficiency, enhanced our security – and as it is touchless, made our store a safer working environment. It has truly been a case of set and forget."

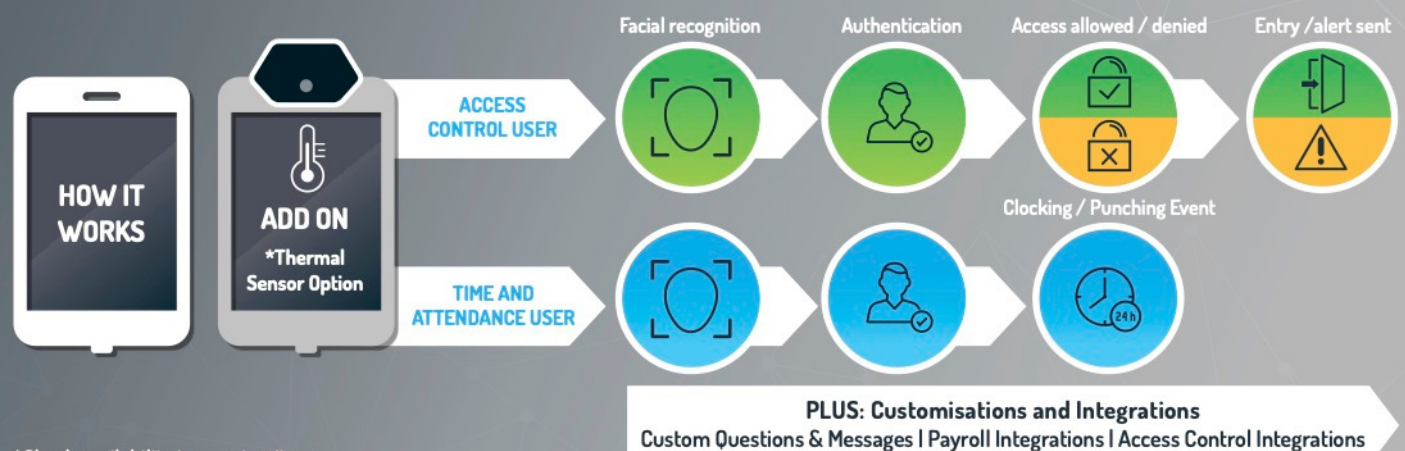

TELSTRA

SEAN SAMPSON, MANAGING DIRECTOR
TELSTRA STORE

"The big advantage with NoahFace is the seamless way it integrates into many payroll platforms. The simplicity of the software and the fact that it's very cool and state of the art looking is a bonus. The greatest complement we get from customers is silence. It just works."

MARTIN FRAPPELL, DIRECTOR, PAY CAT
