

The best fleet safety programs are custom tailored for your business.

Our Fleet Safety Toolkit contains a wide spectrum of solutions designed to cover your real needs, from simple proven driver reporting services to leading edge telematics and video analytics systems.

Road Hazard Alerts

With Artificial Intelligence technology to actively monitor the road ahead and provide early warnings for hazards.

Driver Behavior Monitoring

Combines the power of cameras, telematics, and human monitoring to provide instant alerts to unsafe driver behavior.

How's My Driving Service

A simple to implement solution turns the public into part of your fleet safety team and helps reinforce your commitment to safety.

Continuous MVR & Driver Infraction Monitoring

Available at no cost to our policyholders, provides constant monitoring of your drivers' records across all domestic jurisdictions.

HR Solutions

Partner with a nationally recognized psychometric job applicant testing company to provide your HR team with powerful resources to select the best candidates.

Online Training

24/7 Access to impactful training videos, tests, regulatory information, and fleet management best practices

Distracted Driving Controls

Simple technology to change the culture of distracted driving by automatically detecting and blocking smartphone use while driving.
