

What do CPAs have to say about S-Corp?

“S-Corp is always for the perfect balance of wage reporting and profit declaration in order to **achieve true tax minimization and strategy implementation**”

Tab Burkhalter, CPA

Managing Partner at The Burkhalter Group, Tennessee

“There are **significant tax savings** for individuals that own a small business when they elect to be taxed as S-Corp. By electing to be taxed as an S-Corp, you can reduce the self-employment taxes and save money!”

Paul Pahoresky, CPA

Partner GLP CPAs, Ohio

“I find many small business owners miss a huge tax saving opportunity with their entity selection. **Self-employed service providers are most often best served by an S-Corp, which provides savings on self-employment taxes and enhanced flexibility for tax planning**”

Ryan Surace, CPA

Founder at Surace & Stanton, Pennsylvania
