

SHIELD PROTECTIVE MASK

DESIGNED TO PROTECT AND TO LAST

Durable enough to withstand multiple washings, for a lasting addition to your standard uniform.

**FLUID
REPELLENCY**

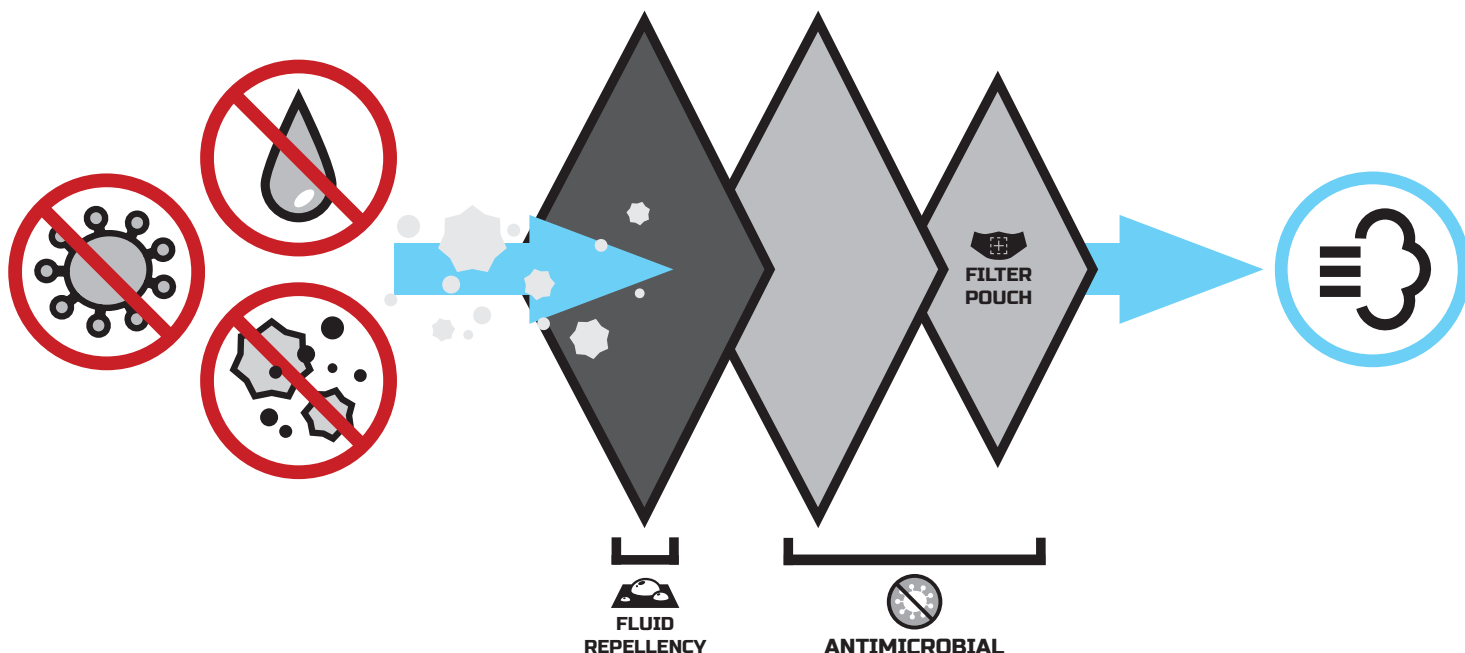

ANTIMICROBIAL

ENHANCED WITH FLUID REPELLENCY AND ANTIMICROBIAL TECHNOLOGIES TO KEEP YOU SAFE

Protective face masks are likely to become an integral, mandatory part of the first responder uniform. Many disposable masks and face coverings only provide a temporary solution, but the new SHIELD Protective Mask is designed to coordinate with uniforms, built to last, and comfortable to wear all day long.

LAYERED FOR ENHANCED PROTECTION

The SHIELD mask contains multiple layers of 100% Supima Cotton. Supima cotton helps dry particles that may contain viruses, retains color, and resists pilling better than other fabrics.

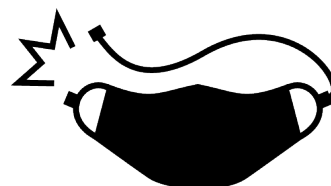

- Exterior matched to your uniform with Fluid Repellency that allows the passage of air but not fluids.
- 2 layers of 100% cotton with AntiMicrobial Technology that breaks down microorganisms, bacteria, and mold using non-ionic silver nano particles.
- Pouch to accommodate an optional N95 filter pad if desired.

**BREATHABLE
MATERIAL**

**FILTER
POUCH**

**BREAK-AWAY
CLOSURE**

Filter not included

CONTOURED FOR ENHANCED COMFORT

The SHIELD mask is contoured to fit the face to prevent the passage of air between the mask and the face of the wearer. The cord with adjustable toggle provides enhanced fit and eliminates pressure on ears. A breakaway snap safely removes the mask if pulled protecting the wearer.

Available in Midnight Navy (SHMASK14) or Black (SHMASK10)
