PATENT PENDING TAA COMPLIANT

LAYERED FOR ENHANCED PROTECTION

The SHIELD mask contains multiple layers of 100% Supima Cotton. Supima cotton helps dry particles that may contain viruses, retains color, and resists pilling better than other fabrics.

- Exterior layer matched to uniform with Fluid Repellency that allows passage of air but not fluids.
- 2 interior layers with Antimicrobial Technology that breaks down microorganisms, bacteria, and mold using non-ionic silver nano particles.
- Pouch to accommodate an optional filter pad if desired.

Filter not included

DESIGNED FOR ENHANCED COMFORT

The SHIELD mask is contoured to fit the face with a nose wire to prevent the passage of air between the mask and the face of the wearer. The cord with adjustable toggle provides enhanced fit and eliminates pressure on ears. A breakaway snap safely removes the mask if pulled protecting the wearer.

Available in Midnight Navy (SHMASK14) or Black (SHMASK10)
