Quarterly Performance Summary
March 31, 2021

Capital Markets Overview

U.S. Equity Market

The ongoing support from monetary and fiscal interventions continues to provide a supportive environment for equities. US small cap stocks led the rally with the Russell 2000 Index returning 12.7%; Large cap stocks, as represented by the S&P 500 index, gained 6.2% during the same period. Growth stocks lagged value as the Russell 1000 Growth Index returned 0.9% in the first quarter compared to 11.3% for the Russell 1000 Value Index. The story is similar in the small cap arena, the Russell 2000 Growth Index returned 4.9%, underperforming its value counterpart 21.2%.

International Equity Markets

Global equities ended the first quarter in the black as ongoing inoculations and fresh fiscal stimulus in the U.S. provided a supportive environment for risk assets. International Developed and Emerging Markets both posted solid gain at 3.5% and 2.3%. Similar to the US market, small caps outperformed in emerging and developed markets. The MSCI EAFE small stocks gained 4.5% and the MSCI Emerging Markets Small Cap returned 7.7%.

Fixed Income Markets

Treasury yields continued their upward trend in March, reflecting the improving outlook for growth and the expectations of a tick-up in inflation. During the quarter, the 10- and 30-year Treasury yields increased 82 and 77 basis points, respectively. The significant move in interest rates negatively impacted broad fixed-income returns; US core fixed income, as represented by the Barclays Agg Index, was down 3.4% during the period. The Bloomberg Barclays US Corporate High Yield Index gained 0.8% for the three months ended March 31; during this period, the S&P/LSTA Leveraged Loan Index increased 1.0%.
