Gift Processing	800-325-7912 x3230	Gift.Processing@LFND.org

Please do not rely on brokers to notify us of your gift as they do not always contact us before the shares have been transferred or are unable to disclose client name or specific information as to how the gift is to be allocated.

The Foundation requires the information below to ensure proper transfer of securities:

Name of the security(s): _____

Ticker Symbol or CUSIP number (include mutual fund share class): _____

Where the shares are currently held: _____

How the shares are held (check one):

- Account – DRS/DRIP/etc. with transfer agent
- Electronically with a broker via DTC
- Physical stock certificate

Number of shares or approximate market value being transferred: _____

The LCMS entity(s) receiving gifting to and the percentage (if gift is being made to multiple entities):

If a physical stock certificate is being gifted we ask that a separate stock power be completed and sent separately from the actual certificate. We suggest the stock certificate be mailed to us via **Registered & Insured Mail** and insure it for the current market value of the stock. Then send the stock power separately via regular mail unless you want to incur an additional cost for faster delivery. This is a more secure means of deliver whereby recovery is more likely should it get misplaced in route. Tracking numbers are extremely valuable when sending securities as they provide a means of following the package along the entire route of delivery.

Mutual Fund Transfers

Before processing any mutual fund transfer contact Sue Sehrt at the LCMS Foundation to determine if there is an existing account with the mutual fund company. It is extremely important that pre-notification be provided to us if we are unable to match a security with the respective donor we will need to return the shares to the sending institution.
