

PRO8 FUEL TRAIN SERIES

EFFICIENCY. CONSISTENCY. FLEXIBILITY.

The PRO8 Series of pre-assembled fuel trains has been designed to make it easy to get the results you need. We have built a simple yet completely engineered solution that, when paired with a Profire BMS controller, will offer you the control, safety, and reliability you expect.

CORE APPLICATIONS

- GAS PRODUCTION UNIT
- HEATED TANK
- SEPARATOR
- GLYCOL DEHYDRATOR
- AMINE REBOILER
- FWKO (FREE WATER KNOCK OUT)
- TREATER
- LINE HEATER
- SALT BATH HEATER

WHY THE PRO8-FTS SERIES?

REDUCE COST & COMPLEXITY

- Mechanically and electrically pre-assembled
- Factory function tested
- Simplified field installation

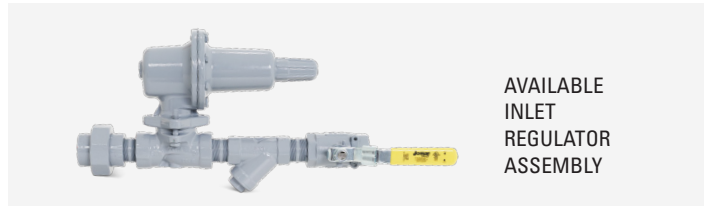

INCREASE EFFICIENCY

- Plug and play solution
- Build/Specification
- Painless procurement

FLEXIBLE CONFIGURATION OPTIONS

- Designed for applications up to 5MM BTU/hr
- 24VDC / 12VDC low power
- Left or right inlet designs
- Mounting options to support your application
- PF2200, PF2100, PF3100 compatible
- PRO8 Installation kits
- PRO8 Inlet Regulator Assembly

AVAILABLE INLET REGULATOR ASSEMBLY

MOUNTING OPTIONS

FLAME ARRESTOR HOUSING MOUNT

CABINET MOUNT
