SPONSORSHIP PROSPECTUS

An initiative supported by Australian Government funding

Advance.org is the professional network for global Australians.

We transform the loose web of Australians scattered around the world into a nationally productive and active network.

Our powerful network draws from the **one million Australians** working overseas and the **two million international alumni** of Australia's education institutions.

We shape Australia's global ambition by:

- Recognising successful Australians overseas
- Reconnecting them professionally with Australia
- Supporting Australian entrepreneurs as they grow globally
- Inspiring future Australian leaders to build their career overseas

Advance.org was established in 2002 by Ken Allen AO, Australia's then Consul General in New York (and Advance Chair Emeritus), who recognised the immense skills and expertise held by Australians overseas.

What is Advance?

A showcase of world class achievement by Australians around the world.

The Advance Awards recognise and celebrate the achievements and talent of Australians who are succeeding on the global stage across all industry sectors.

Since establishing the Awards program in 2012, Advance has identified over 100 Award winners, who then become the GameChangers in our network.

These GameChangers have built extraordinary careers overseas, and embody Australian resourcefulness, creativity and optimism.

The result?

We unearth Australian superstars - many of whom are otherwise unknown in their home country - and celebrate their achievements. We tell their stories to strengthen their professional links with Australia and inspire the next generation of Australian leaders.
