

# 5 Ways Restaurants Are Using Raydiant

People can eat food at home. They come to restaurants for an experience. With Raydiant, you can make that an experience they'll love and want to come back to. Maybe that's why our clients in the restaurant industry keep coming back to us, too.

Here are just a few of the ways restaurant owners are using Raydiant.

**1** **Creating next-level menu boards**  
Menu boards are by far one of the most popular uses of digital signage. And for good reason. Raydiant help you create vibrant menus you can read from across the room. We can also help you pair those menus with mouth-watering HD images of your most delectable dishes.

**2** **Taking curbside service to the next level**  
Good curbside service is now an essential part of any restaurant operation. Make yours jump way ahead of the competition with Raydiant. Locate digital screens outside your establishment to display bright, bold queuing order, wait times, and everyone's favorite--order up signage--that customers can see from their cars.

**3** **Posting safety information**  
These days its more important than ever to put safety first. Raydiant helps you create highly visible signage that shows your customers and your employees your commitment to their safety and keeps you in compliance with local, state, and federal laws. Just use one of over 160,000 professionally-designed templates to create impactful signage in minutes.

**4** **Simplifying and scaling menu operations**  
Raydiant's platform goes above and beyond any other digital signage when it comes to menus. Now, you can not only create, manage, and update menus for your digital signage, you can sync those menus with all of your online outlets. Still in love with print menus? They're not our thing, but with Raydiant, you can sync those up instantly and seamlessly too.

**5** **Managing your operation remotely**  
Wouldn't you love to be able to take care of business at your restaurants without physically having to be there? Now with Raydiant, you can do just that. Our cloud-based remote platform lets you log on from anywhere in the world, any time of day. Once you're in you can launch a new special, switch to this season's new menu, or send out a "thank you" message to your staff--all from wherever you may be.
