

December 2011

To whom it may concern:

I hereby would like thank London Consulting Group for the highly professional work they performed on the project "Integra Ideas" throughout this year. This project has favorably changed our company's work culture, achieving in our personnel an outcome-oriented attitude.

Shoulder-to-shoulder LCG and our personnel worked together to obtain a transformation and simplification of the processes within the areas of General Management and the Finance Committee, which are two of our most important operative areas. The methodology used helped us break important paradigms that affected the Association and allowed us to achieve great results such as:

#### GENERAL MANAGEMENT

- The implementation of a system registered in different parts of the country that allowed for a better management of partner's information and the immediate generation of reports, resulting in a 63% reduction of time taken to prepare the bimonthly report.
- A savings of 23% in the purchase of materials due to the negotiation and forecast model of the material's demand.
- An 84% reduction in material delivery time and a 27% reduction in shipping costs.

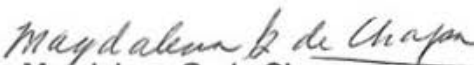

#### FINANCE

- A 72% reduction in Financial Report closing time.
- A 95% reduction in the time of issuance and shipping of invoices through the implementation of the electronic billing module in the ERP system.

Considering the aforementioned improvements, we highly recommend the firm London Consulting Group as company committed to achieving results and one which helps companies obtain more out of their business.

Sincerely,

  
Consuelo Garza de Garza  
ANSPAC Founder

  
Magdalena G. de Chapa  
President of ANSPAC Board

  
Martha María Ortiz de García  
National Committee President
