

QUAD®

ONE 4 ALL

Quad® Series

Fenix Industries, Inc.

1.800.615.8350

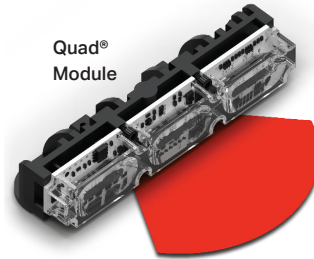

Introduction

The Quad Lighting Series brings the best in safety, brightness and industry-first 4-color lighting technology.

Quad® Mini Lightbar

Quad® Module

60° Optic Light Spread

The Quad Lighting Series uses an advanced linear TIR (Total Internal Reflector) optic to maximize the spot light and minimize lost light.

Optics are specifically designed for the Quad to conform to its unique 4-color lighting configuration.

Quad® Light Stick

Colors

LEDs

CREE^{4th Gen.}

Materials

Military Grade Aluminum
Anti-yellowing Polycarbonate Lens

Product Line

The Quad lighting series is the most innovative, bright and adaptable lighting series, capable of any combination of red, blue, white and amber to tackle any job.

Product Showcase

Mounting

Most Quad lights have multiple mounting options to fit any vehicle.

The Quad Lightbar has 4 unique mounting options.

Installation has never been easier with the revolutionary Quad Converter, a hub for Quad products to limit wires and expand functionality.

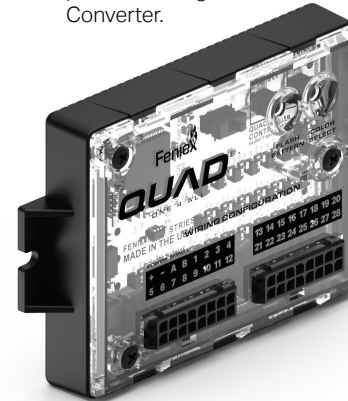

Lighting

Every Quad light has 4 colors in every module, making it the most universal light to combat every situation.

The Quad Converter

Connect multiple Quad products using the Quad Converter.

The Quad Converter makes installing products easier than ever with a 2-pin wire harness.
