

AD130 AGROWDRILL

**INNOVATION
HAS NEVER BEEN SO
AFFORDABLE**

AGROWFLOW®

THE AD130 AGROWDRILL PACKS A HEFTY PUNCH INTO A COMPACT MACHINE. IT OFFERS A RANGE OF AGROWFLOW INNOVATIONS IN AN AFFORDABLE SEED DRILL

Sometimes you don't need a fancy machine with all the bells and whistles. Sometimes what you need is a compact, affordable machine that starts when you need it to, runs when you need it to, and is easy to maintain.

The AD130 Agrowdrill is that machine. It's not fancy, because it doesn't need to be. It hasn't got bells and whistles, but it's built to last and has performance where it counts. The AD130 offers our proven Baker Boot technology to promote seed germination and alleviate trash flow.

With the strength to penetrate hard dry soils and a robust, simple design that can be easily serviced, the AD130 is the reliable workhorse you need.

AD130 PICTURED WITH OPTIONAL DISC COULTERS

STRONG AND RELIABLE

The AD130 is built on Agrowplow's proven 100x100x6mm RHS steel frame which gives it the strength to last season after season. Plus, the dual hoppers have 3mm thick walls to prevent warping and buckling under load.

SIMPLE CALIBRATION

Say goodbye to buckets under the tynes. The AD130's calibration tray can be quickly deployed to make measuring seed output simple and easy. And with infinite sowing rate adjustment, you set the AD130 for optimal crop emergence.

EASY MAINTENANCE

With its easy height adjustment and simple drive-wheel sowing mechanism, the AD130 is as easy to maintain as it is to operate. And with its integrated toolbox, you won't get caught out while in the field.

OPTIONS

- Coulters
- Double chuting
- Small seeds box
- Harrows
- Implement trailer
- Rear tow hitch
- Rubber tyred roller
- Flexiroller

SPECIFICATIONS

Range	16 Row	20 Row
Undercarriage	425 Coil Tyne with Baker Boot, 401 Double Disc Unit	
Tyne Spacing	150mm	
Working Width	2.4m	3m
Transport Width	2.89m	3.49m
Hopper Capacity	Front	385L
	Rear	300L
Tyre Size	235/75 R15	
Number of Toolbars	3	
Toolbar Spacings	440mm	
Under Frame Clearance	620mm	
Drawbar Power	70-90hp	80-100hp
Linkage Type	Trailing with hydraulic lift, CAT2 Three Point Linkage
