## Options for #9 Shank

The following options suit the #9 shank and may be fitted to the AP51, AP71, AP81 and AP91. Not all options can be fitted at the same time. Some options do not fit on the front row of all plows. Options increase drag requirements and may affect shank recoil action. See the Agrowplow Spare Parts Shop at [shop.agrowplow.com.au](http://shop.agrowplow.com.au) for further detail and images.

Limitations apply to the 600 long #9 shank. Consult Agrowplow Sales before considering this option.
