Manage assets with ease

When it comes to portfolio asset management, making the right decision every time is what matters most. With InvestSmart, you can make those decisions with greater speed, clarity and consistency.

InvestSmart is a digital asset platform designed to help investors and developers manage their assets across the entire lifecycle, at acquisition phase and beyond. With InvestSmart you can streamline and manage your critical asset information, commission asset evaluation services and capture asset history in a single digital platform, seamlessly managing performance and risk to meet regulatory and sustainability requirements.

Discover efficient auditability and next generation asset data benchmarking in one platform. Give everyone in your team immediate access to real-time asset data and analytics, and track changes as they happen, with cloud-based collaborative working, at the click of a button.

In a world where we have less time to make more decisions, the ability to plan, analyze and execute digitally at speed without errors isn't just a major competitive advantage – it's a necessity.

**Think faster.
Invest better.**

Clear insights

Visualize key information to gain the insights you need to confidently make decisions about your portfolios, assets and deals, wherever you are, whatever time of day.

Confident decision-making

Understand the history of your assets for better decisions. All the information you need is at your fingertips, so you can respond at pace. Make better investment choices to meet deadlines digitally.

All your data in one place

Keep key asset data in one place, with the ability to digitally share information with others. Simplify and speed up DD request-to-report for faster access to the latest due diligence data for your whole team.

Increased deal capacity

Manage multiple DD assessments quicker and easier than ever before. Handle large portfolios, organize key data, and stay in control of your assets even after due diligence.

Speed and ease

Real-time, interactive and collaborative access to information and insights with a new way to request services and feedback.

Meet your deadlines

No more long hours of emails and phone calls chasing people for information—get the transaction management information you need instantly.

Assurance and transparency

The same high-quality due diligence work from Arcadis, now enhanced by a next-generation digital platform, for better control and predictability. Stay in control, make the right decisions, and be confident your whole investment journey is supported by tried-and-tested expertise.

Improved collaboration

Better team communications and collaborative working experience, with everyone working with the same data, allowing for smoother management and control. Enjoy better control and insights over the entire transaction process with a joint effort from the whole team.

Speed up your success

Ease of access

Access all data on your assets and portfolios through a 24/7 single digital access point. Everything you need throughout the asset ownership lifecycle for easier and smoother transactions.

Deliver at pace

Increased speed and ease of access to portfolio and asset data, with faster DD transactions and reports so you never miss a deadline.

Everything in one place

Capture all your portfolio history data in one easily accessible location. Tap into key information anytime you need it.

Realtime access

Get instant access to preliminary DD reports, even when the site survey closes.

Detailed reporting

Fully digital asset data management. Toggle all your assets, easily visualize them on in-platform maps, keep track of all services and red flags, and keep your stakeholders and customers updated throughout the entire process.

Save time and money

Take advantage of a game-changing new way to request Arcadis' tried-and-tested due diligence services. Ditch the long email threads and missed phone calls. Simply upload all pertinent data and easily keep track of your reports' progress. Quick and instant access to your reports' insights for faster deal flow and seamless transactions.

Industry leading

Built to meet regulatory, risk and sustainability requirements quickly and successfully.

Find out more at

Make the best choices for your assets every time, with even greater speed, clarity and consistency.

Capture your entire asset history to boost your business.

Get started today

The InvestSmart digital asset management platform can be securely accessed through most web browsers. Get set up quickly and easily, with no additional requirements from your tech team. Each user will need their own login credentials.

An Arcadis account manager will set you up on InvestSmart. From there, upload all relevant and available documents in support of your asset management report. Approve or reject reports with a single click, and make in-platform amends or notations as you go.

Book a demo today

We are in beta stage of development and are now welcoming organizations to get involved by experiencing InvestSmart for themselves.
