Riverside Insights is pleased to announce our new training offering for online testing for the 2021–2022 school year.

In response to shifting schedules and teaching and learning in uncertain times, we have created flexible offerings for all districts, the **Riverside Training Academy**. The Riverside Training Academy (RTA) has three main components: Training Classes, On-Demand Trainings and Speak with a Specialist.

- **Training Classes** are live, 30-minute, topic specific classes to prepare you for online testing and reporting. A certified training specialist will present the class with time allowed for clarifying questions.
- **On-Demand Trainings** are brief videos that can be accessed 24/7. The series mirrors the live training classes and can be used as initial training, refresher training prior to testing, and as facilitator videos for training your staff and ensuring content accuracy.
- **Speak with a Specialist** are 15-minute conversations with a certified training specialist to answer clarifying assessment questions after attending training. This invaluable service aids users in understanding how they may implement the assessment in unique situations or clarify questions.

We understand that faculty meetings and large group trainings will likely look very different this year. The Riverside Training Academy allows attendees to register and attend the session that best fits their needs and schedules.

Whether you are assessing with *CogAT*[®], *Iowa Assessments*[™], *easyCBM*[®] or *IowaFlex*[®], the Riverside Training Academy has a class for you. This offering includes multiple weekly training sessions for teachers, proctors, and administrators.

Please contact your Assessment Consultant for training sessions tailored for your district.

Prices are valid until June 30, 2022 and are subject to change without notice.
