Note: As of September 2018, GMRT web-based reports are accessed in DataManager. Previous GMRT administrations can be trended with new administrations and viewed in longitudinal reports in DataManager, as long as the same normative year was used in scoring. To maintain the longitudinal trend in DataManager, select 2006 norms for scoring.

It includes summary reports, individual student reports, roster reports, decoding skills data, and more. When testing with GMRT, web reporting keys are generated when the tests are scored which allow you to access your data in *DataManager*. A *DataManager* system email with information on activating and distributing web reporting keys will be sent to the Account Holder that was listed on the GMRT Material Order when your order was placed.

IMPORTANT: If you ordered GMRT materials prior to September 1, 2018 contact Customer Service to designate the primary contact who will be the GMRT test administrator owner and DataManager Account Holder.
